Marxs Fate:

Marx's Fate Jerrold Seigel,2010-11 Marx s Fate is an intellectual biography of Marx that combines historical textual and psychological analyses to provide major new insights into the philosopher s writings and development **Marx's Fate** Jerrold E. Seigel,1978 **Marx on Suicide** Karl Marx,1999 This provocative volume presents a glimpse of social philosopher Karl Marx s views on the subject of suicide **Karl Marx's Social and Political Thought** Bob Jessop,Charlie Malcolm-Brown,1999

The Revolution to Come Dan Edelstein,2025-04-15 How an event once considered the greatest of all political dangers came to be seen as a solution to all social problems Political thinkers from Plato to John Adams saw revolutions as a grave threat to society and advocated for a constitution that prevented them by balancing social interests and forms of government The Revolution to Come traces how evolving conceptions of history ushered in a faith in the power of revolution to create more just and reasonable societies Taking readers from Greek antiquity to Leninist Russia Dan Edelstein describes how classical philosophers viewed history as chaotic and directionless and sought to keep historical change especially revolutions at bay This conception prevailed until the eighteenth century when Enlightenment thinkers conceived of history as a form of progress and of revolution as its catalyst These ideas were put to the test during the French Revolution and came to define revolutions well into the twentieth century Edelstein demonstrates how the coming of the revolution leaves societies divided over its goals giving rise to new forms of violence in which rivals are targeted as counterrevolutionaries A panoramic work of intellectual history The Revolution to Come challenges us to reflect on the aims and consequences of revolution and to balance the value of stability over the hope for change in our own moment of fear and upheaval **Heaven on Earth**

Richard Landes,2011-08-04 A comprehensive examination of millennialism the belief that the grandest events of history and the cosmos will occur soon and suddenly whether as a religious d nouement with the coming of the Last Days or as a final social solution to resolve the human predicament forever Through analysis of diverse cases throughout history Richard Landes demonstrates that millennialism has been deliberately downplayed and even ignored by historians and shows that millenarian beliefs have played a role in many supposedly secular events movements and periods including modernity

Hegel and Marx David MacGregor,2014-06-15 The second edition of Hegel and Marx After the Fall of Communism surveys Hegel s close connection with world famed economist Friedrich List the declared enemy of Karl Marx Illuminating the mysterious nature of Hegel s relationship with Marx and Friedrich List may help us to comprehend the extraordinary geopolitical transformations that have occurred in the last fifteen years since the original publication of Hegel and Marx in 1998 **The Transformation of Political Culture 1789-1848** F. Furet,M. Ozouf,2015-11-24 This third volume in a much praised series on The French Revolution and the Creation of Modern Political Culture examines the way in which the Revolution has been portrayed in European thought and its impact upon the development of political philosophy in the nineteenth century Opening with the influence of Burke and other contemporaries of the Revolution and the ensuing debate

over the question Why the Terror this volume explores such diverse themes as the legacy of the Revolution on the political and social evolution of Germany England Italy and Russia the crisis it brought about in the Catholic Church and the difficulties encountered in determining the end of the Revolution By showing that the upheaval in European politics and philosophy caused by the French Revolution continued to shape nations peoples and thought the texts brought together in this volume permit a better understanding of the event s extraordinary complexity **Karl Marx** Allan Megill,2001-12-11
Why did Karl Marx want to exclude politics and the market from his vision of a future socialism In *Karl Marx The Burden of Reason* Allan Megill begins with this question Megill s examination of Marx s formative writings casts new light on Marx s relation to philosophy and reveals a hitherto largely unknown rationalist Marx In demonstrating how Marx s rationalism permeated his attempts to understand politics economics and history generally Megill forces the reader to rethink Marx s entire intellectual project While Megill writes as an intellectual historian and historian of philosophy his highly original redescription of the Marxian enterprise has important implications for how we think about the usability of Marx s work today *Karl Marx The Burden of Reason* will be of interest to those who wish to reflect on the fate of Marxism during the era of Soviet Communism It will also be of interest to those who wish to discern what is living and what is dead what is adequate and what requires replacement or supplementation in the work of a figure who in spite of everything remains one of the greatest philosophers and social scientists of the modern world **Marx's Crises Theory** Michael Perelman,1987-07-13
The history of capitalism has long been thought to be a sequence of recurring crises that appear in various forms crises in employing people crises in obtaining resources and financial crises Marx s Crises Theory Scarcity Labor and Finance provides a framework for interpreting Marx s theory of crises In conclusion the author asserts that as long as the financial structure leads to periodic breakdowns Marx s writings on the subject will retain their importance as a source of theory and analysis of the dynamics of political economy **Karl Marx** Karl Dannenberg,1918 *Marx's Critical Concept of Science* John J. Stachel,1994 **Marxian and Christian Utopianism** John Joseph Marsden,1991 **The Radical Review** ,1917

Marx's Critique of Politics, 1842-1847 Gary Teeple,1984 **Karl Marx and Friedrich Engels** D. B. Riordan,1927 **Bolshevism and the West** Scott Nearing,Bertrand Russell,1924 **Karl Marx, a Study in Fanaticism** Edward Hallett Carr,1934 Bibliographical note pages 304 306 *Socialism: Critical and Constructive* James Ramsay MacDonald,1924 **Karl Marx** Wilhelm Liebknecht,1901
