Dominion Bureau of Statistics, 1926 Report Québec (Province). Dept. of Public Instruction, 1930 *Schooling the Daughters of Marianne* Linda L. Clark, 1984-06-30 This first book length study of girls primary education in France gives a concrete picture of how Frenchwomen were and are prepared for their roles in society Until the 1960s the primary school provided the only formal education for the majority of French children Long recognized as a major inculcator of patriotic and moral values the French primary school also played the vital role of preparing girls for their expected adult lives Linda L Clark describes in detail this socialization process By analyzing a wide variety of documents from 1870 to the present textbooks curriculum materials students notebooks examination questions inspectors reports and teachers memoirs she has uncovered not only what was taught to girls but the social and political assumptions that lay behind the primary school s messages about feminine personalities and activities The book goes on to establish the relationship of feminine images to important aspects of French social economic and political life A chapter on the preparation of girls for the world of work for example reveals the discrepancy between formal teaching about femininity and women s actual participation in society Nouvelles lectures illustrées, écoles primaires de filles Bernard Van Hollebeke, 1893 *Annual Report of Engineer in Chief* Haiti.
