Mestizo Nations:

Mestizo Nations Juan E. De Castro, 2002-05 Nationality in Latin America has long been entwined with questions of racial identity Just as American born colonial elites grounded their struggle for independence from Spain and Portugal in the history of Amerindian resistance constructions of nationality were based on the notion of the fusion of populations heterogeneous in culture race and language But this rhetorical celebration of difference was framed by a real life pressure to assimilate into cultures always defined by Iberian American elites In Mestizo Nations Juan De Castro explores the construction of nationality in Latin American and Chicano literature and thought during the nineteenth and twentieth centuries Focusing on the discourse of mestizaje which proposes the creation of a homogenous culture out of American Indian black and Iberian elements he examines a selection of texts that represent the entire history and regional landscape of Latin American culture in its Western indigenous and neo African traditions from Independence to the present Through them he delineates some of the ambiguities and contradictions that have beset this discourse Among texts considered are the Indianist novel *Iracema* by the nineteenth century Brazilian author Jos de Alencar the *Tradiciones peruanas* Peruvian Ricardo Palma s fictionalizations of national difference and historical and sociological essays by the Peruvian Marxist Jos Carlos Mari tegui and the Brazilian intellectual Gilberto Freyre And because questions raised by this discourse are equally relevant to postmodern concerns with national and transnational heterogeneity De Castro also analyzes such recent examples as the Cuban dance band Los Van Van s use of Afrocentric lyrics Richard Rodriguez s interpretations of North American reality and points of contact and divergence between Jos Mar a Arguedas s novel *The Fox from Up Above and the Fox from Down Below* and writings of Gloria Anzald a and Julia Kristeva By updating the concept of mestizaje as a critical tool for analyzing literary text and cultural trends incorporating not only race culture and nationality but also gender language and politics De Castro shows the implications of this Latin American discursive tradition for current critical debates in cultural and area studies Mestizo Nations contains important insights for all Latin Americanists as a tool for understanding racial relations and cultural hybridization creating not only an important commentary on Latin America but also a critique of American life in the age of multiculturalism

Mestizo Nations Juan E. De Castro, 2022-08-30 Nationality in Latin America has long been entwined with questions of racial identity Just as American born colonial elites grounded their struggle for independence from Spain and Portugal in the history of Amerindian resistance constructions of nationality were based on the notion of the fusion of populations heterogeneous in culture race and language But this rhetorical celebration of difference was framed by a real life pressure to assimilate into cultures always defined by Iberian American elites In Mestizo Nations Juan De Castro explores the construction of nationality in Latin American and Chicano literature and thought during the nineteenth and twentieth centuries Focusing on the discourse of mestizaje which proposes the creation of a homogenous culture out of American Indian black and Iberian elements he examines a selection of texts that represent the entire history and regional

landscape of Latin American culture in its Western indigenous and neo African traditions from Independence to the present Through them he delineates some of the ambiguities and contradictions that have beset this discourse Among texts considered are the Indianist novel *Iracema* by the nineteenth century Brazilian author Jos de Alencar the *Tradiciones peruanas* Peruvian Ricardo Palma s fictionalizations of national difference and historical and sociological essays by the Peruvian Marxist Jos Carlos Mari tegui and the Brazilian intellectual Gilberto Freyre And because questions raised by this discourse are equally relevant to postmodern concerns with national and transnational heterogeneity De Castro also analyzes such recent examples as the Cuban dance band Los Van Van s use of Afrocentric lyrics Richard Rodriguez s interpretations of North American reality and points of contact and divergence between Jos Mar a Arguedas s novel *The Fox from Up Above* and the *Fox from Down Below* and writings of Gloria Anzald a and Julia Kristeva By updating the concept of *mestizaje* as a critical tool for analyzing literary text and cultural trends incorporating not only race culture and nationality but also gender language and politics De Castro shows the implications of this Latin American discursive tradition for current critical debates in cultural and area studies *Mestizo Nations* contains important insights for all Latin Americanists as a tool for understanding racial relations and cultural hybridization creating not only an important commentary on Latin America but also a critique of American life in the age of multiculturalism

Mestizo Modernism Tace Hedrick, 2003 Focusing on four key artists who represent Latin American modernism Cesar Vallejo Gabriela Mistral Diego Rivera and Frida Kahlo Tace Hendrick examines what being modern and American meant for them and illuminates the cultural contexts within which they worked

Mestizo America William Ospina, 2000 *Mestizo America* the country of the future offers a general panorama of what it calls Our America that is Latin America as seen by one of its outstanding writers It provides detailed analysis of its development transformations history and defining social forces But it is also the evocation of a utopia of the possibility of creating a supra national society that ignores the restrictions of frontiers and thanks to its millenary traditions creates a common space with a privileged identity that may change the future of the continent A shared heritage historical links and a pat that creates solidarity among its nations are the keys to this visionary ideal Original and wide ranging poetical yet scrupulously accurate the book demonstrates with a wealth of detail that the countries of Latin America have a common identity strong enough to redefine the destiny of the region above all because they share a profound and all embracing culture whose influence is now being felt throughout the world This culture could be the basis for creating a coordinated and balanced economic community a federated political body and a commonwealth of nations with a dynamic social interchange The great challenge for the next century argues the author revolves around getting the continent to formulate and establish a political and economic order that is in harmony with the global trends of the modern world And while the many provinces of Latin America should not lose sight of their peoples roots and local cultures the continent must also create optimum strategies for the development of its competitiveness an indispensable condition for achieving prosperity in a world

heading towards integration an integration that not only requires institutional reforms but also a commitment to Latin American culture as a whole This book approaches its subject matter from different angles but all of them converge on a single purpose to create and strengthen our awareness of the possibilities of a Latin America that is mestizo that is ours It does this through a rigorous and panoramic description of the history of Latin America which not only covers politics and economics but also its natural setting and geography literature and art social and intellectual movements ethnic groups and local traditions as well as the achievements of its great men From the multiple examples given by the author it is easy to understand that the conditions which may lead to the unification of Latin America do exist and reflect its potential and wealth there is a new awareness that its inhabitants belong to an authentic world One of the key arguments developed in the final chapter is that any unification of Latin America must be based on an equilibrium between material prosperity and humanism which in turn depends on obtaining a higher level of education and greater degree of democracy for its people as well as a recognition of their innate dignity

Alabadle! Dr. Justo L. Gonzalez, 1996-04-01 By looking at the wide variety of Hispanic Christian worship that exists within the Hispanic community Alabadle highlights the cultural generational and denominational elements that comprise the spectrum of Hispanic worship Justo L Gonzalez and seven other contributors provide an insightful look into the variety of worship styles that exist among numerous church traditions including Assemblies of God United Methodist Catholic American Baptist Presbyterian and Disciples of Christ And yet in the midst of this variety is a common thread of excitement about worship and about the gospel Anyone interested in exploring worship music and liturgy styles from a particular Hispanic perspective will find Alabadle a valuable learning tool

Against Racism Monica Moreno Figueroa, Peter Wade, 2022-03-22 Powerful narratives often describe Latin American nations as fundamentally mestizo These narratives have hampered the acknowledgment of racism in the region but recent multiculturalist reforms have increased recognition of Black and Indigenous identities and cultures Multiculturalism may focus on identity and visibility and address more casual and social forms of racism but can also distract attention from structural racism and racialized inequality and constrain larger antiracist initiatives Additionally multiple understandings of how racism and antiracism fit into projects of social transformation make racism a complex and multifaceted issue The essays in Against Racism examine actors in Brazil Colombia Ecuador and Mexico that move beyond recognition politics to address structural inequalities and material conflicts and build common ground with other marginalized groups The organizations in this study advocate an approach to deep social structural transformation that is inclusive fosters alliances and is inspired by a radical imagination

Representations of China in Latin American Literature (1987-2016) Maria Montt Strabucchi, 2023-11-15 An Open Access edition of this book is available on the Liverpool University Press website and the OAPEN library as part of the Opening the Future project with COPIM Representations of China in Latin American Literature 1987 2016 analyses contemporary Latin American novels in which China is the main theme Using China as a

multidimensional term it explores how the novels both highlight and undermine assumptions about China that have shaped Latin America's understanding of China and shows China to be a kind of literary imaginary third term which reframes Latin American discourses of alterity On one level it argues that these texts play with the way that China stands in as a wandering signifier and as a metonym for Asia a gesture that essentialises it as an unchanging other On another level it argues that the novels employment of China resists essentialist constructions of identity China is thus shown to be serving as a concept which allows for criticism of the construction of fetishized otherness and of the exclusion inherent in essentialist discourses of identity The book presents and analyses the depiction of an imaginary of China which is arguably performative but which discloses the tropes and themes which may be both established and subverted in the novels Chapter One examines the way in which China is represented and constructed in Latin American novels where this country is a setting for their stories The novels studied in Chapter Two are linked to the presence of Chinese communities in Latin America The final chapter examines novels whose main theme is travel to contemporary China Ultimately in the novels studied in this book China serves as a concept through which essentialist notions of identity are critiqued

Racism on Trial Ian F. Haney López, 2004-09-01 Haney López tells the compelling story of the Chicano movement in Los Angeles by following two criminal trials including one arising from the student walkouts of 1968 He demonstrates how racial prejudice led to police brutality and judicial discrimination that in turn spurred Chicano militancy

The Nation and Athenæum, 1912 **The Nation and the Athenaeum**, 1929 **Indigenous Mestizos** Marisol de la Cadena, 2000 In the early twentieth century Peruvian intellectuals unlike their European counterparts rejected biological categories of race as a basis for discrimination But this did not eliminate social hierarchies instead it redefined racial categories as cultural differences such as differences in education or manners In Indigenous Mestizos Marisol de la Cadena traces the history of the notion of race from this turn of the century definition to a hegemony of racism in Peru De la Cadena's ethnographically and historically rich study examines how indigenous citizens of the city of Cuzco have been conceived by others as well as how they have viewed themselves and places these conceptions within the struggle for political identity and representation Demonstrating that the terms Indian and mestizo are complex ambivalent and influenced by social legal and

political changes she provides close readings of everyday concepts such as marketplace identity religious ritual grassroots dance and popular culture as well as of such common terms as respect decency and education She shows how Indian has come to mean an indigenous person without economic and educational means one who is illiterate impoverished and rural Mestizo on the other hand has come to refer to an urban usually literate and economically successful person claiming indigenous heritage and participating in indigenous cultural practices De la Cadena argues that this version of de Indianization which rather than assimilation is a complex political negotiation for a dignified identity does not cancel the economic and political equalities of racism in Peru although it has made room for some people to reclaim a decolonized Andean cultural heritage This highly original synthesis of diverse theoretical arguments brought to bear on a series of case studies will be of interest to scholars of cultural anthropology postcolonialism race and ethnicity gender studies and history in addition to Latin Americanists
