Foreigners in Their Native Land David J. Weber, 2003 Dozens of selections from firsthand accounts introduced by David J. Weber's essays

capture the essence of the Mexican American experience in the Southwest from the time the first pioneers came north from Mexico

Walls and Mirrors David G. Gutiérrez, 1995-03-27 Covering more than one hundred years of American history

Walls and Mirrors examines the ways that continuous immigration from Mexico transformed and continues to shape the political social and cultural life of the American Southwest. Taking a fresh approach to one of the most divisive political issues of our time David Gutiérrez explores the ways that nearly a century of steady immigration from Mexico has shaped ethnic politics in California and Texas the two largest U.S. border states. Drawing on an extensive body of primary and secondary sources Gutiérrez focuses on the complex ways that their pattern of immigration influenced Mexican Americans' sense of social and cultural identity and as a consequence their politics. He challenges the most cherished American myths about U.S. immigration policy pointing out that contrary to rhetoric about alien invasions U.S. government and regional business interests have actively recruited Mexican and other foreign workers for over a century thus helping to establish and perpetuate the flow of immigrants into the United States. In addition Gutiérrez offers a new interpretation of the debate over assimilation and multiculturalism in American society. Rejecting the notion of the melting pot he explores the ways that ethnic Mexicans have resisted assimilation and fought to create a cultural space for themselves in distinctive ethnic communities throughout the southwestern United States

North to Aztlán Richard Griswold del Castillo, Arnoldo De León, 1996 In this comprehensive survey Richard Griswold del Castillo and Arnoldo De León explore the complex process of cultural and economic exchange between Mexican Americans Mexican immigrants and a racially and ethnically diverse North American society. Ethnicity in the Sunbelt Arnoldo De León, 2001 A century after the first wave of Hispanic settlement in Houston the city has come to be

known as the Hispanic mecca of Texas. Arnoldo De León's classic study of Hispanic Houston now updated to cover recent developments and encompass a decade of additional scholarship showcases the urban experience for Sunbelt Mexican Americans. De León focuses on the development of the barrios in Texas' largest city from the 1920s to the present. Following

the generational model he explores issues of acculturation and identity formation across political and social eras. This contribution to community studies urban history and ethnic studies was originally published in 1989 by the Center for Mexican American Studies at the University of Houston.
