Hispanic Culture of Mexico, Central America, and the Caribbean Jan Michael

Hanvik, 1996. One of a series of reference volumes each examining a cultural period of a particular nation. Culture is used in a broad sense to encompass all the ways in which a people define themselves including a wide scope of human communication and expression from advertising to fine art. Famous individuals are also covered such as John C. Gage, Jackson Pollock, Richard Burton, Mussolini, Lenin, and Aretha Franklin. In addition, the text defines the entries and describes and analyzes the influence and significance of each one. For example, an entry on abstract expressionism will not only define the movement but will also describe what it means to us and what it says about us. Entries range from 50 to 1000 words with between 500 and 1000 entries appearing in each individual volume.

Mexican American Mojo Anthony Macías, 2008-11-11. Stretching from the years during the Second World War when young couples jitterbugged across the dance floor at the Zenda Ballroom through the early 1950s when honking tenor saxophones could be heard at the Angelus Hall to the Spanish language cosmopolitanism of the late 1950s and 1960s, *Mexican American Mojo* is a lively account of Mexican American urban culture in wartime and postwar Los Angeles as seen through the evolution of dance styles, nightlife, and above all, popular music. Revealing the links between a vibrant Chicano music culture and postwar social and geographic mobility, Anthony Macías shows how by participating in jazz, the zoot suit phenomenon, car culture, rhythm and blues, rock and roll, and Latin music, Mexican Americans not only rejected second-class citizenship and demeaning stereotypes but also transformed Los Angeles. Macías conducted numerous interviews for *Mexican American Mojo*, and the voices of little-known artists and fans fill its pages. In addition, more famous musicians such as Ritchie Valens and Lalo Guerrero are considered anew in relation to their contemporaries and the city. Macías examines language, fashion, and subcultures to trace the history of hip and cool in Los Angeles as well as the Chicano influence on urban culture. He argues that a grass-roots multicultural urban civility that challenged the attempted containment of Mexican Americans and African Americans emerged in the neighborhoods, schools, nightclubs, dance halls, and auditoriums of mid-twentieth-century Los Angeles. So take a little trip with Macías via streetcar or freeway to a time when Los Angeles had advanced public high school music programs, segregated musicians' union locals, a highbrow municipal Bureau of Music, independent R & B labels, and robust rock and roll and Latin music scenes.

The Boom Femenino in Mexico Nuala Finnegan, Jane Elizabeth Lavery, 2010. *The Boom Femenino in Mexico*. Reading Contemporary Women's Writing is a collection of essays that focuses on literary production by women in Mexico over the last three decades. In its exploration of the boom femenino phenomenon, the book traces the history of the earlier boom in Latin American culture and investigates the implications of the use of the same term in the context of contemporary women's

writing from Mexico In this way it engages critically with the cultural historical and literary significance of the term illuminating the concept for a wide range of readers It is clear that the entry of so many women writers into an arena traditionally reserved for men has prompted discussion around concepts such as women TM s writing TM and the very definition of literature TM itself Many of the contributors grapple with the theoretical tensions that such debates provoke offering an important opportunity to think critically about the texts produced during this period and the ways in which they have impacted on the Mexican and international cultural spheres The project is comprehensive in its scope and for the first time brings together scholars from Mexico the U S and Europe in a transnational forum The book posits that despite certain aesthetic and thematic commonalities the increased output by women writers in Mexico cannot be appraised as a unified literary movement Instead it embraces a wide range of different generic forms and the subjects under study in the essays in the book include the best selling work of Angeles Mastretta Elena Poniatowska and Laura Esquivel as well as the social and political preoccupations of journalists Rosanna Reguillo and Cristina Pacheco Contributors offer readings of the aesthetic visions of writers as diverse as Carmen Boullosa Ana Garc a Bergua and Eve Gil while other essays examine the nuances of contemporary gender identity in the work of Ana Clavel Sabina Berman Brianda Domecq and Mar a Luisa Puga There are essays devoted to poetry by indigenous Mayan women and an analysis of the complex place of poetry within the broader framework of literary production The problems that emerge as a result of literary cataloguing based on gender politics are also considered at length in a number of essays that take a panoramic view of literary production over the period Various critical approaches are employed throughout and the collection as a whole demonstrates that academic interest in Mexican women TM s writing of the boom femenino is thriving Above all the essays here provide a space in which the location of women within prevailing cultural paradigms in Mexico and their role in the mapping of power in evolving textual canons may be interrogated It is clear from the collection that interest in such issues is still alive and that the debate is far from over
