Mexican Native Arts and Crafts Luis Covarrubias, As the Great Depression touched every corner of America the New Deal promoted indigenous arts and crafts as a means of bootstrapping Native American peoples But New Deal administrators romanticization of indigenous artists predisposed them to favor pre industrial forms rather than art that responded to contemporary markets In *A New Deal for Native Art* Jennifer McLellan reveals how positioning the native artist as a pre modern Other served the goals of New Deal programs and how this sometimes worked at cross purposes with promoting native self sufficiency She describes federal policies of the 1930s and early 1940s that sought to generate an upscale market for Native American arts and crafts And by unraveling the complex ways in which commodification was negotiated and the roles that producers consumers and New Deal administrators played in that process she sheds new light on native art s commodity status and the artist s position as colonial subject In this first book to address the ways in which New Deal Indian policy specifically advanced commodification and colonization McLellan reviews its multi pronged effort to improve the market for Indian art through the Indian Arts and Crafts Board arts and crafts cooperatives murals museum exhibits and Civilian Conservation Corps projects Presenting nationwide case studies that demonstrate transcultural dynamics of production and reception she argues for viewing Indian art as a commodity as part of the national economy and as part of national political trends and reform efforts McLellan marks the contributions of key individuals from John Collier and Rene d Harnoncourt to Navajo artist Gerald Nailor whose mural in the Navajo Nation Council House conveyed distinctly different messages to outsiders and tribal members Featuring dozens of illustrations *A New Deal for Native Art* offers a new look at the complexities of folk art revivals as it opens a new window on the Indian New Deal

Crafting Identity Pavel Shlossberg,2015-06-11

Crafting Identity goes far beyond folklore in its ethnographic exploration of mask making in central Mexico In addition to examining larger theoretical issues about indigenous and mestizo identity and cultural citizenship as represented through masks and festivals the book also examines how dominant institutions of cultural production art media and tourism mediate Mexican arte popular which makes Mexican indigeneity digestible from the standpoint of elite and popular Mexican nationalism and American and global markets for folklore The first ethnographic study of its kind the book examines how indigenous and mestizo mask makers both popular and elite view and contest relations of power and inequality through their craft Using data from his interviews with mask makers collectors museum curators editors and others Pavel Shlossberg places the artisans within the larger context of their relationships with the nation state and Mexican elites as well as with the production cultures that inform international arts and crafts markets In exploring the connection of mask making to capitalism the book examines the symbolic and material pressures brought to bear on Mexican artisans to embody and enact self racializing stereotypes and the performance of

stigmatized indigenous identities Shlossberg's weaving of ethnographic data and cultural theory demystifies the way mask makers ascribe meaning to their practices and illuminates how these practices are influenced by state and cultural institutions. Demonstrating how the practice of mask making negotiates ethnoracial identity with regard to the Mexican state and the United States, Shlossberg shows how it derives meaning, value and economic worth in the eyes of the state and cultural institutions that mediate between the mask maker and the market. Performing Craft in Mexico Michele Avis Feder-Nadoff, 2024-04-08. *Performing Craft in Mexico* examines how Mexican artisans and diverse actors perform as translators of aesthetics, politics and history through the field of craft. The contributors build from historical and ethnographic archives and direct engagement with makers to reassemble an expanded vision of artisanal production and the complicated classifications that surround Mexican popular art making from the Anglo term *craft* to the Spanish term *artesanía*. This book also homages Dr Janet Brody Esser's research on the Blackmen masquerades of Michoacán exploring African history and presence in Mexico. The contributors provide wide ranging insight into the agency, history and contemporary world of Mexican makers and other entangled actors in the field of craft. Mexican native arts and crafts.
