Latin-American [mythology] Hartley Burr Alexander, 1920. Myths, legends, heroes, and gods from Native Americans in Central and South America. The Teotihuacan Trinity Annabeth Headrick, 2013-03-15. Northeast of modern-day Mexico City stand the remnants of one of the world's largest preindustrial cities, Teotihuacan.

Monumental in scale Teotihuacan is organized along a three mile long thoroughfare the Avenue of the Dead that leads up to the massive Pyramid of the Moon Lining the avenue are numerous plazas and temples which indicate that the city once housed a large population that engaged in complex rituals and ceremonies Although scholars have studied Teotihuacan for over a century the precise nature of its religious and political life has remained unclear in part because no one has yet deciphered the glyphs that may explain much about the city's organization and belief systems In this groundbreaking book Annabeth Headrick analyzes Teotihuacan's art and architecture in the light of archaeological data and Mesoamerican ethnography to propose a new model for the city's social and political organization Challenging the view that Teotihuacan was a peaceful city in which disparate groups united in an ideology of solidarity Headrick instead identifies three social groups that competed for political power rulers kin based groups led by influential lineage heads and military orders that each had their own animal insignia Her findings provide the most complete evidence to date that Teotihuacan had powerful rulers who allied with the military to maintain their authority in the face of challenges by the lineage heads Headrick's analysis also underscores the importance of warfare in Teotihuacan society and clarifies significant aspects of its ritual life including shamanism and an annual tree raising ceremony that commemorated the Mesoamerican creation story The Sculpture of Ancient Mexico = La Escultura Del México Antiguo Paul Author Westheim, 2021-09-09 This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it This work is in the public domain in the United States of America and possibly other nations Within the United States you may freely copy and distribute this work as no entity individual or corporate has a copyright on the body of the work Scholars believe and we concur that this work is important enough to be preserved reproduced and made generally available to the public To ensure a quality reading experience this work has been proofread and republished using a format that seamlessly blends the original graphical elements with text in an easy to read typeface We appreciate your support of the preservation process and thank you for being an important part of keeping this knowledge alive and relevant **Trees and Shrubs of Mexico ...** Paul Carpenter Standley, 1923 **The Mythology of all Races** Hartley Burr Alexander, Ph.D., 1920 **Journal de la Société des américanistes de Paris**, 1914 **Annual Report of the American Historical Association** American Historical Association, 1923 Trees and Shrubs of Mexico: Oxalidaceae-Turneraceae Paul Carpenter Standley, 1923 *A Study of Maya Art, Its Subject Matter and Historical Development* Herbert Joseph Spinden, 1913 **Latin-American Periodicals Current in the Reference Department of the New York Public Library** New York Public Library, 1920
