An excerpt from the Author's PREFACE THE object of the author in writing this book is to remove if possible to some extent the prejudice which exists against the present government of Mexico This prejudice is based upon a misapprehension of the character of that government and upon the fact that very little is known in the United States of what Maximilian has done for Mexico If any intelligent citizen of the United States should go to that country remain there for six months make himself somewhat acquainted with the Mexican people and see with his own eyes how much Maximilian has done for their happiness and prosperity and above all compare Mexico under a monarchy with what it always has been under a republic he would candidly admit that at last Mexico has found the government that is suited to her and that will eventually raise her to a respectable rank among the nations of the earth The government of Maximilian is a limited constitutional monarchy it is founded upon the choice of the Mexican people and in spite of the difficulties which it has had to contend with and which environ it now it has done more for the prosperity of Mexico more for the enlightenment and happiness of the Mexican people during the three years of its existence than any republican government in Mexico ever did in thirty forty or fifty years It is possible that this book may be unpopular I do not write for popularity however but to set forth the truth From the foundation of the republic up to the year 1861 independence of thought was considered creditable and freedom of speech and of the press were regarded as the most precious birth rights of an American citizen From the foundation of the republic up to the year 1861 the man who had not manliness of soul enough to think for himself and courage enough to express his thoughts frankly was despised No character was more contemptible than one who slavishly copied the opinions of others and had no opinions of his own This is all changed now We live under a new and loyal dispensation In 1861 and 1862 the edict went forth that men must stop thinking for themselves and must stop expressing their thoughts All men must think alike and they must think in a loyal manner To believe that the war against the south was unnecessary and might have been avoided to believe that it would end in the destruction of the Union and to express that belief was disloyal To believe that the withholding of medicines from the sick in the south was cruel and to express that belief was disloyal To believe that the object of the war on the part of the north was the subjugation and conquest of the Southern States and the permanent dissolution of the Union and to express that belief was treason To believe that Abraham Lincoln was neither a saint nor a statesman and to express that belief was to be a traitor In a word every one was required to believe as the leaders of the radical Republican party believed and to speak as they spoke Whoever did not do so was a marked man It was thus that the ideas about the Mexican empire sprang up Napoleon is helping the south Napoleon is going to recognize the Southern Confederacy Napoleon has established a monarchy in Mexico to which he will annex Texas and to this will be annexed in time all the Southern States This was the first song and nobody was allowed to sing in a different tune Then again

Napoleon is helping the south Napoleon is going to recognize the south The throne of Maximilian is upheld by the presence of French troops and a French army is to be permanently maintained in Mexico This was the next song Everybody's violin flute harp sackbut and dulcimer must play the same notes and smashed be the fiddle that will not Then again well at any rate Napoleon desired to help the south and wished to recognize the Southern Confederacy **Mexico Under Maximilian J. Montgomery Hyde,2013-01-04 Maximilian I of Mexico and his consort Charlotte of Belgium known as Carlota were the only rulers of the second Mexican Empire Installed by Napoleon III and a small group of Mexican Monarchists the rule was short lived and even though Maximilian had a genuine love for Mexico and its people and brought around liberal reforms the people of Mexico had no wish to be ruled by a foreign power and revolted This is the fascinating story of his three year reign from documents and first hand accounts Many of the earliest books particularly those dating back to the 1900s and before are now extremely scarce and increasingly expensive We are republishing these classic works in affordable high quality modern editions using the original text and artwork

Recollections of Mexico Samuel M. Basch,2001-05 Masterfully translated and annotated by Fred D Ullman a distant relative of Dr Basch this memoir is a rare authoritative source on a key period in Mexican history and a unique supplement for courses on nineteenth century Mexico **Maximilian and Carlota** M. M. McAllen,2014-01-08 In this new telling of Mexico's Second Empire and Louis Napoleon's installation of Maximilian von Habsburg and his wife Carlota of Belgium as the emperor and empress of Mexico Maximilian and Carlota brings the dramatic interesting and tragic time of this six year siege to life From 1861 to 1866 the French incorporated the armies of Austria Belgium including forces from Crimea to Egypt to fight and subdue the regime of Mexico's Benito Juarez during the time of the U S Civil War France viewed this as a chance to

seize Mexican territory in a moment they were convinced the Confederacy would prevail and take over Mexico With both sides distracted in the U S this was their opportunity to seize territory in North America In 1867 with aid from the United States this movement came to a disastrous end both for the royals and for France while ushering in a new era for Mexico In a bid to oust Ju rez Mexican conservatives appealed to European leaders to select a monarch to run their country Maximilian and Carlota s reign from 1864 to 1867 was marked from the start by extravagance and ambition and ended with the execution of Maximilian by firing squad with Carlota on the brink of madness This epoch moment in the arc of French colonial rule which spans North American and European history at a critical juncture on both continents shows how Napoleon III s failure to save Maximilian disgusted Europeans and sealed his own fate Maximilian and Carlota offers a vivid portrait of the unusual marriage of Maximilian and Carlota and of international high society and politics at this critical nineteenth century juncture This largely unknown era in the history of the Americas comes to life through this colorful telling of the couple s tragic reign *The Mexican Adventure. [On European Intervention in Mexico Between 1861 and 1867. With Plates, Including a Portrait of the Emperor Maximilian.]*. Daniel DAWSON (Biographer.),1935 Mexico Under Maximilian J. J. Kendall,2014-03-11 Description Mexico under Maximilian by J J Kendall late Captain H M 44th and 6th Regiments and subsequently in the service of his late Majesty the Emperor of Mexico is an interesting chapter of the history of Mexico under the unfortunate Emperor Maximilian related by an eye witness and one who personally shared in the many dangers and horrors of the time Captain Kendall writes graphically and the story he tells loses none of its thrilling interest in his manner of telling it The incidents are all of them attractive and are described naturally and with no attempt at exaggeration The reviews The author has taken great pains to obtain authentic information and as to the interest of the book there can be no doubt Morning Post The author is a close observer of men and manners and is every inch a traveller and a soldier His book is most interesting Inverness Advertiser Much useful and interesting information is contained in this volume Its perusal cannot be attended with other than a feeling of pleasure Court Circular A very readable and amusing book Captain Kendall gives us interesting sketches of the natural capabilities of the country and the social habits of the people John Bull *Mexico Under Maximilian* Henry Martyn Flint,2004-01-01 Life of Maximilian I., Late Emperor of Mexico Frederic Hall,1868

Emperor Maximilian I of Mexico Charles River Editors,Gustavo Vazquez Lozano,2025-06-03 Once upon a time when a Civil War threatened to fracture the US there was a monarchy south of the Rio Grande That kingdom was called Mexico It had a magnificent castle a beautiful princess and a tall handsome prince he was noble and idealistic he had fire in his heart but he was weak and gullible A fool some would say One day when he was still a teenager he wrote Ambition is like the balloonist To some extent the rise is nice and he does enjoy a splendid view and a vast landscape But when he rises more vertigo occurs the air becomes thin and the risk of a big fall increases With this parable the Austrian Archduke Maximilian of Hapsburg inadvertently predicted the destiny to which he would bravely ride despite the warnings and the sweet talkers In

any case he followed his heart's mandate And Charlotte the princess was one of the most cultured and beautiful in Europe Since she was a girl she'd known that one day she would become a queen or an empress When it was first hinted that they would be offered the crown of Mexico she was 22 and he was 28 and they were surrounded by the intrigue and ambition of their own brothers who could not wait to have them removed from the picture So when three years later the couple received the official diplomatic mission which affirmed Mexico required their presence the proposition was like a fairy tale come true In the imagination of the era Mexico was the distant paradise described by the great geographer Alexander von Humboldt thick jungles and forests steaming volcanoes copious gold and silver mines infinite beaches and exotic birds The most dangerous worldview is the worldview of those who have not viewed the world the Prussian explorer had written and Max believed it in all sincerity and contemplated the adventure with the eyes of his soul In Mexico the reality was different from the imagination It was too late by the time they realized they had been seduced by sirens specifically the siren sitting upon the throne of France Napoleon III The zealous emperor frowned at the expansion of the US and the Protestant Anglo Saxon race But there were also the vast territories of northern Mexico to consider the gold and silver mines plus Napoleon's vague idea of rebuilding the Latin race and culture in the Americas With that in mind he brought two puppets to his global stage Maximilian and Charlotte and made sure they were told that the Mexican people would tender unto them a carpet of roses as soon as they saw their royal feet touch their land In their dreams Max of Austria and Charlotte of Belgium would become the saviors of the ancient empire of Montezuma now unable to govern itself and on the road to self destruction But Maximilian was not thinking of conquest and looting as did his ancestor Charles I of Spain but in reconstruction and healing It is not that he was guilty of arrogance either Sending a European monarch to the American continent sounds outrageous these days but at the time it was common for the kings of England Belgium Greece or Bulgaria to be of other nationalities Still Maximilian refused to accept the throne of Mexico until he was shown evidence that the Mexicans agreed When he was shown a pretend plebiscite he agreed on the dangerous adventure The tragedy of Maximilian and Charlotte was romantic and political In Mexico's official history the one recorded by the winners they were an affront to independence and a symbol of European arrogance For the monarchies of Europe they are a sad and embarrassing memory because of the abandonment craftiness and treachery they lived through Repentance came too late as both were dead by then One was buried in his grave and the other had been driven insane
