The North American Free Trade Agreement is an agreement between Mexico Canada and the USA which is based on the

as possible to reach a more fluent international trade which means more gains from trade for each of the countries Even

country Mexico are responsive to such a close agreement One wonders how the interaction between those countries works

fifth in extreme poverty As we can see by taking a closer look to their GDP as an indicator for their financial and economic  
situations we recognize large differences between the two richer countries and Mexico which of course does not belong to  
the poorest of the poor but still does not take in one of the first places in the world rank      Mexico and the World 2006
