Michael Heizer Double Negative Sculpture In The Land:

Michael Heizer Michael Heizer,1991 **Michael Heizer: The Once and Future Monuments** William L. Fox,2019-09-24 The most comprehensive account available of Michael Heizer's art by a writer and curator who has critical experience with the artist and his work Michael Heizer is among the greatest and often least accessible American artists As one of the last living figures who launched the Land Art movement his legacy of works that are literally and metaphorically monumental has an incalculable influence on the world of sculpture and environmental art But his seclusion in the remote Nevada desert as well as his notorious obduracy have resulted in significant gaps in our critical understanding Michael Heizer *The Once and Future Monuments* spans the breadth of Heizer's career uniquely combining fieldwork personal narrative and biographical research to create the first major assessment in years of this titan of American art Author William L. Fox founding director of the Center for Art Environment at the Nevada Museum of Art has alternately been a sponsor advocate and critic of Heizer's work for decades Fox's understanding of the artist's history and connection to landscape his time spent with Heizer at the remote ranch where Heizer is finishing his magnum opus the mile long sculpture *City* and his access to some of Heizer's key associates give him a unique position from which to discuss the artist's work Fox has also made numerous site visits to Heizer's work including early pieces in the Nevada desert now largely lost to the elements to correct the often inconsistent accounts of their locations Last Fox imparts a crucial new understanding of Heizer's work by elaborating on the artist's bond with his father the famed archaeologist and cultural ecologist Robert Heizer who enlisted his son on important digs in Mexico and Peru providing the young man with an appreciation of site landscape and geology that would thoroughly inform his work Michael Heizer *The Once and Future Monuments* is a long overdue addition to the critical and biographical literature of this major figure in American art **Michael Heizer** Michael Heizer,Mark C. Taylor,1991 Created with bulldozer and dynamite in 1969 in the vast expanse of the Nevada desert Michael Heizer's *Double Negative* was one of the first and remains among the most influential of the monumental earthworks sculptures in and of the land a 1 500 foot incision on the edge of a mesa 80 miles from Las Vegas its site is now officially part of the collection of The Museum of Contemporary Art in Los Angeles captured in this book with 25 oversized plates that document the sculpture's creation and impart a sense of its scale Cover *The Grove Encyclopedia of American Art* Joan M. Marter,2011 Arranged in alphabetical order these 5 volumes encompass the history of the cultural development of America with over 2300 entries **Amazing Art Adventures** Yolanda Zappaterra,2021-06-15 *Amazing Art Adventures* gathers together hundreds of exciting unexpected and memorable art experiences from around the world **Eco-Art History in East and Southeast Asia** De-nin D. Lee,2019-01-29 The essays in this anthology examine artwork and sites in East and Southeast Asia through the lens of eco art history In these regions significant anthropogenic changes to terrain watercourses and ecosystems date back millennia as do artwork and artefacts that both conceptualize and modify the natural world The rising interest in earth conscious modes of

analysis or eco art history informs this anthology which explores the mutual impact of artistic expressions and local environments in East and Southeast Asia Moreover conceptual tools and case studies focused on these regions impart important insights bearing on the development of eco art history The book includes case studies examining the impact of the Little Ice Age on court painting and systems of representing marine life in the Joseon period in Korea Other contributors consider contemporary artistic strategies such as developing a sustainability aesthetics and focusing attention to non human agents to respond to environmental damage and climate change in the present Additional essays analyse the complicated art historical ecology of heritage sites and question the underlying anthropocentrism in art historical priorities and practices As a whole this anthology argues for the importance of ecological considerations in art history
