More Than Mere Playthings Julia C. Fischer, 2016-06-22 This book is inspired by the 2015 Italian Art Society sponsored conference sessions of the American Association of Italian Studies Its seven chapters span the art of ancient Etruria to twentieth century Italy and explore a variety of media including mirrors cameos treasury objects reliquaries ceramics and figurines Contributors approach the topic of the minor arts from a variety of interdisciplinary perspectives including reception use patronage gender issues propaganda and iconography The volume thus fills the lacuna in the scholarship of the minor arts and reveals that the minor arts are unique and worthy of study for their size preciousness patronage audience function portability and material Ultimately in revealing the importance of these objects the book shows that the division between the major and minor arts is no longer valid and that these objects of the minor arts hold as much significance as those of the major arts

Portraits of the Renaissance Alison Manges Nogueira, 2024-04-02 Many small Renaissance portraits were richly adorned with covers or backs bearing allegorical figures mythological scenes or emblems that celebrated the sitter and invited the viewer to decipher their meaning Hidden Faces includes seventy objects ranging in format from covered paintings to miniature boxes that illuminate the symbiotic relationship between the portrait and its pair Texts by thirteen distinguished scholars vividly illustrate that the other faces of these portraits represent some of the most innovative images of the Renaissance created by masters such as Hans Memling and Titian Uniting works that have in some cases been separated for centuries this fascinating volume shows how the multifaceted format unveiled the sitter s identity both by physically revealing the portrait and reading the significance behind its cover

The Cultural Aesthetics of Eighteenth-Century

Porcelain Michael E. Yonan, 2017-07-05 During the eighteenth century porcelain held significant cultural and artistic importance. This collection represents one of the first thorough scholarly attempts to explore the diversity of the medium's cultural meanings. Among the volume's purposes is to expose porcelain objects to the analytical and theoretical rigor which is routinely applied to painting, sculpture and architecture and thereby to reposition eighteenth century porcelain within new and more fruitful interpretative frameworks. The authors also analyze the aesthetics of porcelain and its physical characteristics, particularly the way its tactile and visual qualities reinforced and challenged the social processes within which porcelain objects were viewed, collected and used. The essays in this volume treat objects such as figurines representing British theatrical celebrities, a boxwood and ebony figural porcelain stand, works of architecture meant to approximate porcelain visually, porcelain flowers adorning objects such as candelabra and perfume burners, and tea sets decorated with unusual designs. The geographical areas covered in the collection include China, North Africa, Spain, France, Italy, Britain, America, Japan, Austria and Holland.

Fragile Diplomacy Maureen Cassidy-Geiger, 2007-01-01 While imported Chinese porcelain had become a valuable commodity in Europe in the seventeenth century, local attempts to produce porcelain long remained unsuccessful. At last the secret of hard paste porcelain was uncovered and in 1710 the first European porcelain was manufactured in Saxony. Meissen porcelain still manufactured today, soon ranked in value with silver and gold. This thorough and lavishly illustrated volume explores the early years of Meissen porcelain and how the princes of Saxony came to use highly prized porcelain pieces as diplomatic gifts for presentation to foreign courts. An eminent team of international contributors examines the trade of Meissen with other nations from England to Russia. They also investigate the cultural ambience of the Dresden Court, varying tastes of the markets, the wide range of porcelain objects and their designers and makers. Individual chapters are devoted to gifts to Denmark, other German courts, the Holy Roman Empire, Italy, France and other nations. For every Meissen collector or enthusiast, this book will be not only a treasured handbook but also a source of visual delight.

Aquatint Rena M. Hoisington, 2021-10-26 How an ingenious printmaking technique became a cross-cultural phenomenon in Enlightenment Europe. Driven by a growing interest in collecting and multiplying drawings, artists and amateurs in the eighteenth century sought a new technique capable of replicating the subtlety of ink wash and watercolor. They devised an innovative and versatile new medium, aquatint, which would spread in use across Europe within a few decades, its distinctive dark tones making possible a remarkable variety of ingenious imagery. In this illuminating book, Rena M. Hoisington traces how the aquatint technique flourished as a cross-cultural and cosmopolitan phenomenon that contributed to the rise of art publishing, connoisseurship, leisure travel, drawing instruction and the popularity of neoclassicism. She offers new insights into sophisticated experiments by artists such as Francisco Goya, Maria Catharina Prestel, Paul Sandby and Jean Baptiste Le Prince. Marvelously illustrated with rare works from the National Gallery of Art's collection of early aquatints, this engaging book provides a fresh look at how printmaking contributed to a vibrant exchange.

Catalogue de l exposition Le Roi et l artiste François Ier et Rosso Fiorentino présentée au château de Fontainebleau du 23 mars au 24 juin 2013 Les travaux engagés en 1528 et conduits jusqu'à la fin du règne transformèrent le château dans son état actuel et ses abords en une résidence au goût du jour plus vaste marquée par la volonté italienne mais sans perdre l'individualité française. Pour embellir le roi, cherche à inviter les plus grands maîtres italiens à entrer dans son service Michel Ange et Giulio Romano refusent l'offre mais Giovan Battista di Jacopo (1494-1540) surnommé Rosso Fiorentino le Florentin roux arrive à Fontainebleau en 1530.

Entre 1530 et 1540, Rosso crée à Fontainebleau plusieurs grands décors dont la galerie François Ier ornée de lambris sculptés de fresques et de stucs selon une formule absolument inédite en Europe. *French Drawings from the British Museum* Perrin Stein, Martin Royalton-Kisch, 2005. *Art of the Royal Court* Wolfram Koeppe, Anna Maria Giusti, Metropolitan Museum of Art (New York, N.Y.), 2008. In the royal and princely courts of Europe, artworks made of multicolored semiprecious stones were passionately coveted objects. Known as pietre dure or hardstones, this type of artistic expression includes paintings in stone which were composed of intricately cut separate pieces that were made into magnificent tabots, cabinets and wall decorations. Other works included vessels and ornaments carved with virtuosic skill from a single piece of rare and brilliant lapis lazuli, chalcedony, jasper or similarly prized substance. Exquisite objects such as boxes, clocks and jewelry and portraits of nobles sculpted in variously colored stones. Derived from ancient Roman decorative stonework, the art of pietre dure was developed in Renaissance Florence where the manufacture of such objects was enthusiastically sponsored by Medici princes. Ideally suited for ostentatious display, the works sent an unmistakable message of wealth and political might that was understood in centers of power everywhere. From Italy the medium spread across Europe to Prague, Madrid, Naples, Paris and later Saint Petersburg. Precious and fragile pietre dure objects are rarely brought together in large numbers. This richly illustrated catalogue contains more than 150 masterworks from across Europe, dating from five centuries, including almost every artistic use of semiprecious stone during this time, as well as some of the finest examples of the medium. Eight essays by European and American experts discuss the individualized development of pietre dure in every European region, the latest developments in scholarship, the interrelationships between art and dynastic politics and between cultures, and a variety of techniques used to produce these luxurious masterworks. *Metropolitan Museum of Art website*. **Balthus** Sabine Rewald, Museum Ludwig, 2007.
