This work is a two part guide for libraries that want to assemble a comprehensive collection of operatic materials. Part I is a list of recommended operas ranging over four hundred years of operatic history and including a variety of different styles and languages. The goal of Part I is to provide recommendations for a comprehensive library collection of video and sound operatic recordings. Part II suggest books periodicals and online resources that could be an integral and important part of a library's opera collection. This section also discusses the care and maintenance of sound and video recordings offers suggestions for locating hard to find operatic material and explores the library's role in sparking patron interest in opera.
