*Mexicans in the Midwest, 1900-1932* Juan R. Garc'a,1996 Early in this century a few Mexican migrants began streaming northward into the Midwest but by 1914 in response to the war in Europe and a booming U S economy the stream had become a flood Barely a generation later this so called Immigrant Generation of Mexicans was displaced and returned to the U S Southwest or to Mexico Drawing on both published works and archival materials this new study considers the many factors that affected the process of immigration as well as the development of communities in the region These include the internal forces of religion ethnic identity and a sense of nationalism as well as external influences such as economic factors discrimination and the vagaries of U S Mexico relations Here is a book that persuasively challenges many prevailing assumptions about Mexican people and the communities they established in the Midwest The author notes the commonalities and differences between Mexicans in that region and their compadres who settled elsewhere He further demonstrates that although Mexicans in the Midwest maintained a strong sense of cultural identity they were quick to adopt the consumer culture and other elements of U S life that met their needs Focusing on a people place and time rarely covered before now this wide ranging work will be welcomed by scholars and students of history sociology and Chicano studies General readers interested in ethnic issues and the multicultural fabric of American society will find here a window to the past as well as new perspectives for understanding the present and the future **Mexican Life** ,1971 **Mexico** Charles Reginald Enock,1909

Butterworth,Nancy R. Gómez,2021-02-26

Democracy is venerated in US political culture in part because it is our democracy As a result we assume that the government and institutions of the United States represent the true and right form of democracy needed by all This volume challenges this commonplace belief by putting US politics in the context of the Americas more broadly Seeking to cultivate conversations among and between the hemispheres this collection examines local political rhetorics across the Americas The contributors scholars of communication from both North and South America recognize democratic ideals as irreducible to a single national perspective and reflect on the ways social minorities in the Western Hemisphere engage in unique political discourses The essays consider current rhetorics in the United States on American exceptionalism immigration citizenship and land rights alongside current cultural and political events in Latin America such as corruption in Guatemala women s activism in Ciudad Ju rez representation in Venezuela and media bias in Brazil Through a survey of these rhetorics this volume provides a broad analysis of democracy It highlights institutional and cultural differences in the Americas and presents a hemispheric democracy that is both more pluralistic and more agonistic than what is believed about the system in the United States In addition to the editors the contributors include Jos Cortez Lindsay M Cramer Pamela Flores Alberto Gonzlez Amy N Heuman Christa J Olson Carlos Piovezani Clara Eugenia Rojas Blanco Abraham Romney Ren Agust n de los Santos and Alejandra Vitale The Ethnogeography of the Tewa Indians John Peabody Harrington,1916 **Hispania** ,1929 Vol 1 includes Organization number published Nov 1917 National Petroleum News ,1920 **The Interpreter** ,1929
