Mexican Americans In School:

Mexican Americans in School Thomas P. Carter, Roberto D. Segura, 1979 Mexican Americans in School Thomas P. Carter, 1970 **The Other Struggle for Equal Schools** Rubén Donato, 1997-01-01 Examining the Mexican American struggle for equal education during the 1960s and 1970s in the Southwest in general and in a California community in particular Donato challenges conventional wisdom that Mexican Americans were passive victims accepting their educational fates He looks at how Mexican American parents confronted the relative tranquility of school governance how educators responded to increasing numbers of Mexican Americans in schools how school officials viewed problems faced by Mexican American children and why educators chose specific remedies Finally he examines how federal state and local educational policies corresponded with the desires of the Mexican American community **Mexican American Education Study Report**, 1972 *Mexican Americans and Education* Estela Godinez Ballón, 2015-04-16 As the Mexican American student population in U S public schools climbs to over 8 million the establishment of policies that promote equity and respect have never been more crucial In *Mexican Americans and Education* Estela Godinez Ballón provides an overview of the relationship between Mexican Americans and all levels of U S public schooling *Mexican Americans and Education* begins with a brief overview of historical educational conditions that have impacted the experiences and opportunities of Mexican American students and moves into an examination of major contemporary institutional barriers to academic success including segregation high stakes testing and curriculum tracking Ballón also explores the status of Mexican American students in higher education and introduces theories and pedagogies that aim to understand and improve school conditions Through her extensive examination of the major issues impacting Mexican American students Ballón provides a broad introduction to an increasingly relevant topic Ballón uses understandable and accessible language to examine institutional and ideological factors that have negatively impacted Mexican Americans public school experiences while also focusing on their strengths and possibilities for future action This unique overview serves as a foundation for both education and Chicana/o studies courses as well as in teacher and professional development *Chicano Education in the Era of Segregation* Gilbert G. Gonzalez, 2013 Originally published Philadelphia Balch Institute Press 1990 **The Other American Dilemma** Rubén Donato, Jarrod Hanson, 2021-07-01 In *The Other American Dilemma* Rubén Donato and Jarrod Hanson examine the experiences of Mexican immigrants Mexican Americans and Hispanos as in their schools and communities between 1912 and 1953 Drawing from the Mexican Archives located in Mexico City and by venturing outside of the Southwest their examinations of specific communities in Arkansas California Colorado Kansas Louisiana and Texas shed new light on Mexicans social and educational experiences Donato and Hanson maintain that Mexicans whether recent immigrants American citizens or Hispanos as with deep roots in the United States were not seen as true Americans and were subject to unofficial school segregation and Jim Crow The book highlights similarities and differences between the ways the Mexican

origin population and African Americans were treated. Because of their mestizo heritage the Mexican origin population was seen as racially mixed and kept on the margins of community and school life by people in power. *Ethnic Isolation of Mexican Americans in the Public Schools of the Southwest* U. S. Commission on Civil Rights. Mexican American Education Study, 1971. *The Excluded Student* United States Commission on Civil Rights. Mexican American Education Study, 1972.

Ethnic Isolation of Mexican Americans in the Public Schools of the Southwest United States Commission on Civil Rights. Mexican American Education Study, 1970. **Mexican Americans and Educational Change** Alfredo Castañeda, 1974.

Some Factors Affecting Leadership of Mexican Americans in a High School Marguerite De la Vega, 1951. **The Excluded Student** United States Commission on Civil Rights, 1972. USA Report on the research results of 1968 and 1969 surveys of the way the educational system in the South West deals with language problems and cultural factors of the Mexican American ethnic group. Pupil examines the extent of cultural exclusion in the schools, describes programmes used to remedy language deficiencies including Remedial reading etc and discusses community relations etc. Graphs, illustrations, references and statistical tables. *Mexican American Education Study* United States Commission on Civil Rights, 1971.

Mexican-Americans and the Schools Thomas Carter, 1970. *Chicano Students and the Courts* Richard R. Valencia, 2010-03. In 1925 Adolfo Babe Romo, a Mexican American rancher in Tempe, Arizona, filed suit against his school district on behalf of his four young children who were forced to attend a markedly low quality segregated school and won. But Romo v Laird was just the beginning. Some sources rank Mexican Americans as one of the most poorly educated ethnic groups in the United States. *Chicano Students and the Courts* is a comprehensive look at this community's long standing legal struggle for better schools and educational equality. Through the lens of critical race theory, Valencia details why and how Mexican American parents and their children have been forced to resort to legal action. *Chicano Students and the Courts* engages the many areas that have spurred Mexican Americans to legal battle, including school segregation, financing, special education, bilingual education, school closures, undocumented students, higher education financing, and high stakes testing, ultimately situating these legal efforts in the broader scope of the Mexican American community's overall struggle for the right to an equal education. Extensively researched and written by an author with firsthand experience in the courtroom as an expert witness in Mexican American education cases, this volume is the first to provide an in depth understanding of the intersection of litigation and education vis vis Mexican Americans. **The Other Struggle for Equal Schools** Ruben Donato, 1997-10-02.

Contrary to popular belief that the struggle for educational opportunity during the civil rights era was waged exclusively by African Americans, this fascinating book shows that the Mexican American population challenged discriminatory educational practice more than was portrayed by the media. *The Magic Key* Ruth Enid Zambrana, Sylvia Hurtado, 2015-10-15. Mexican Americans comprise the largest subgroup of Latinos and their path to education can be a difficult one. Yet just as this group is often marginalized so are their stories and relatively few studies have chronicled the

educational trajectory of Mexican American men and women In this interdisciplinary collection editors Zambrana and Hurtado have brought together research studies that reveal new ways to understand how and why members of this subgroup have succeeded and how the facilitators of success in higher education have changed or remained the same The Magic Key s four sections explain the context of Mexican American higher education issues provide conceptual understandings explore contemporary college experiences and offer implications for educational policy and future practices Using historical and contemporary data as well as new conceptual apparatuses the authors in this collection create a comparative nuanced approach that brings Mexican Americans lived experiences into the dominant discourse of social science and education This diverse set of studies presents both quantitative and qualitative data by gender to examine trends of generations of Mexican American college students provides information on perceptions of welcoming university climates and proffers insights on emergent issues in the field of higher education for this population Professors and students across disciplines will find this volume indispensable for its insights on the Mexican American educational experience both past and present *Educational Achievement Among Mexican-Americans* George W. Mayeske,1968 *Mexican American Education Study* United States Commission on Civil Rights,1971
