## **Mexico According To Eisenstein:**

*Mexico According to Eisenstein* Inga Karetnikova, Leon Steinmetz, 1991 Sergei Eisenstein 1898-1948 spent just over a year in Mexico from December 1930 to February 1932 a period during which he shot a huge quantity of footage for his never to be completed film *Que viva Mexico* This remarkable volume gathers the original script for *Que viva Mexico* dozens of photographs and drawings and various short pieces of writing about Mexico completed after Eisenstein's return to the Soviet Union

*Choreographing Mexico* Manuel R. Cuellar, 2022-09-20 2023 de la Torre Bueno First Book Award Dance Studies Association The impact of folkloric dance and performance on Mexican cultural politics and national identity The years between 1910 and 1940 were formative for Mexico with the ouster of Porfirio Díaz the subsequent revolution and the creation of the new state Amid the upheaval Mexican dance emerged as a key arena of contestation regarding what it meant to be Mexican Through an analysis of written photographic choreographic and cinematographic renderings of a festive Mexico *Choreographing Mexico* examines how bodies in motion both performed and critiqued the nation Manuel Cuellar details the integration of Indigenous and regional dance styles into centennial celebrations civic festivals and popular films Much of the time this was a top down affair with cultural elites seeking to legitimate a hegemonic national character by incorporating traces of indigeneity Yet dancers also used their moving bodies to challenge the official image of a Mexico full of manly vigor and free from racial and ethnic divisions At home and abroad dancers made nuanced articulations of female Indigenous Black and even queer renditions of the nation Cuellar reminds us of the ongoing political significance of movement and embodied experience as folklórico maintains an important and still contested place in Mexican and Mexican American identity today

*New Media and the Artaud Effect* Jay Murphy, 2021-11-20 This book proposes following Antonin Artaud an investigation exploring the virtual body neurology and the brain as fields of contestation seeking a clearer understanding of Artaud's transformations that ultimately leads into examining the relevance Artaud may have for an adequate theory of the current media environment *New Media and the Artaud Effect* is the only current full length study of the relation of Artaud's work to dilemmas of digital art media and society today It is also singular in that it combines a far reaching discussion of the theoretical implications and ramifications of the late or final Artaud with a treatment of individual media works sometimes directly inspired from Artaud's travails Artaud has long been justly regarded as one of the seminal influences in mid and late 20th century performance and theater it is argued here that Artaud's insights are if anything more applicable to digital post digital society and the plethora of works that are made possible by it

*Psychologies in Revolution* Hannah Proctor, 2020-01-13 This book situates the work of the Soviet psychologist and neurologist Alexander Luria 1902-1977 in its historical context and explores the romantic approach to scientific writing developed in his case histories Luria consistently asserted that human consciousness was formed by cultural and historical experience He described psychology as the science of social history and his ideas about subjectivity cognition and mental health have a history of their own Lines of

mutual influence existed between Luria and his colleagues on the other side of the iron curtain but Psychologies in Revolution also discusses Luria's research in relation to Soviet history from the October Revolution of 1917 through the collectivisation of agriculture and Stalinist purges of the 1930s to the Second World War and finally the relative stability of the Brezhnev era foregrounding the often marginalised people with whom Luria's clinical work brought him into contact. By historicising science and by focusing on a theoretical approach which itself emphasised the centrality of social and political factors for understanding human subjectivity the book also seeks to contribute to current debates in the medical humanities.

*Encyclopedia of the Documentary Film 3-Volume Set* Ian Aitken, 2013-10-18 The Encyclopedia of the Documentary Film is a fully international reference work on the history of the documentary film from the Lumière brothers' *Workers Leaving the Lumière Factory* 1885 to Michael Moore's *Fahrenheit 9/11* 2004. This Encyclopedia provides a resource that critically analyzes that history in all its aspects. Not only does this Encyclopedia examine individual films and the careers of individual film makers, it also provides overview articles of national and regional documentary film history. It explains concepts and themes in the study of documentary film, the techniques used in making films and the institutions that support their production, appreciation and preservation.

### **Documenting the Documentary** Barry Keith Grant, Jeannette Sloniowski, 1998

Documenting the Documentary features essays by 27 film scholars from a wide range of critical and theoretical perspectives. Each essay focuses on one or two important documentaries, engaging in questions surrounding ethics, ideology, politics, power, race, gender and representation, but always in terms of how they arise out of or are involved in the reading of specific documentaries as particular textual constructions. By closely reading documentaries as rich visual works, this anthology fills a void in the critical writing on documentaries which tends to privilege production over aesthetic pleasure. As we increasingly perceive and comprehend the world through visual media, understanding the textual strategies by which individual documentaries are organized has become critically important. Documenting the Documentary offers clear, serious and insightful analyses of documentary films and is a welcome balance between theory and criticism, abstract conceptualization and concrete analysis.

### **Mexico Policy News**, 1986    **The Mexican Day of the Dead** Chloë Sayer, 1994

This anthology celebrates the Day of the Dead, November 2, with poems and prose, photos and art. Cover: *Mexico in the 1940s* Stephen R. Niblo, 1999-09. Attention to Mexico's history after 1940 stands in the shadow of the country's epic revolution of 1910-1923, and historians and scholars tend to bring their focus on Mexican history to a close with the end of the Lázaro Cárdenas presidency in 1940. *Mexico in the 1940s: Modernity, Politics, and Corruption* examines Mexican politics in the wake of Cardenismo and the dawn of Miguel Alemán's presidency. This new book focuses on the decade of the 1940s and analyzes Alemanismo into the early years of the 1950s. Based upon a decade of intensive investigation, *Mexico in the 1940s* is the first broad and substantial study of the political life of the Mexican nation during this period, thus opening a new era to historical investigation. *Mexico in the 1940s* offers a unique interpretation of the country's domestic politics during this period.

including an explanation of how political leaders were able to reverse the course of the Mexican Revolution an original interpretation of corruption in Mexican political life a phenomenon that did not end in the 1940s and an analysis of the relationship between the US media interests the Mexican state and the Mexican media companies that still dominates mass communication today Mexico in the 1940s is an excellent volume for courses in Mexican history **San Francisco Review of Books** ,1991 **West Coast Line** ,2000 **British Bulletin of Publications on Latin America, the Caribbean, Portugal and Spain** ,1991 **The Eagle and the Virgin** Mary Kay Vaughan,Stephen Lewis,2006-03-13 Collection of essays aimed at an undergraduate audience focusing on cultural policy and production after the Mexican revolution

*Eisenstein's Labyrinth* Håkan Lövgren,1996 Beginning with his film Bezhin lug 1935 and continuing with Die Walkure 1940 Liubov poeta 1940 and Ivan Groznyi 1945 Eisenstein utilized a kind of inverted parricide fathers or father figures killing their sons or son substitutes to represent his conflicts with his fathers his own father his mentor Meyerhold and Stalin or the Soviet State The parricide theme and its inversion are important in Eisenstein's autobiography as well as in the alchemical mythology that is scrutinized as a subtext in his production of Wagner's Die Walkure The Saturnine temperament and melancholy are features of this mythology used in the analysis of Ivan's character in Ivan Groznyi in order to explain the ambivalence surrounding this implicit portrait of Stalin **A Short History of the Movies** Gerald Mast,Bruce F.
