Moving Places Nataša Gregorič Bon, Jaka Repič, 2016-09-01 Moving Places draws together contributions from Europe Latin America Asia and Africa exploring practices and experiences of movement non movement and place making The book centers on moving places places with locations that are not fixed but relative Locations appearing to be reasonably stable such as home and homeland are in fact always subject to practices imaginaries and politics of movement Bringing together original ethnographic contributions with a clear theoretical focus this volume spans the fields of anthropology human geography migration and border studies and serves as teaching material in related programs      **Powerful Places in the Ancient Andes** Justin Jennings, Edward R. Swenson, 2018-11-15 This book argues that a careful consideration of Andean conceptions of powerful places is critical not only to understanding Andean political and religious history but to rethinking sociological theories on landscapes more generally      **Foster Care** United States.
