lift the human spirit yet the spirituality of architecture is rarely directly addressed in academic scholarship The seventeen chapters provide a diverse range of perspectives grouped according to topical themes Being in the World Sacred Secular and the Contemporary Condition Symbolic Engagements Sacred Landscapes and Spirituality and the Designed Environment Even though the authors approach the subject from a range of disciplines and theoretical positions all share interests in the need to rediscover redefine or reclaim the sacred in everyday experience scholarly analysis and design *The Architects' Journal* ,2001 **Siting Mobility** Tara Anne Richardson,2003 *2000 Raoul Wallenberg Lecture* Michael Benedikt,2000

Dimensions ,2002 Dimensions is the annual student produced journal of architecture at the University of Michigan It seeks to contribute to the critical discourse of architectural education by documenting the most compelling work produced by its students faculty fellows and visiting lecturers **Gigon/Guyer** Annette Gigon,2000 Architectural Publications Index ,2001 Architecture Beyond Experience Michael Benedikt,2020-03-15 Architecture Beyond Experience is an interdisciplinary work in the service of one goal the bringing about of a more relational posthuman and yet humanist strain in architecture It argues against the values that currently guide much architectural production and the larger economy s too which is the making marketing and staging of ever more arresting experiences The result in architecture is experientialism the belief that what gives a building value aside from fulfilling its shelter functions is how its views and spaces make us personally feel as we move around it I argue that it s time to find a deeper basis for making and judging architecture a basis which is not personal experience multiplied but which is dialogical and relational from the start I use the word relational to describe an architecture that guides people in search of encounter with or avoidance of each other and that manifests and demonstrates those same desires in its own forms components and materials Buildings are beings When architecture they teach as well as protect they tell us who we were and who we want to be they exemplify they deserve respect invite investment and reward affection These are social relational values values that both underlie and go beyond experiential ones sometimes called phenomenological Such relational values have been suppressed in part because architects have joined the Experience Economy hardly noticing they have done so Architecture Beyond Experience provides the argument and the concepts to ultimately re center a profession *Raoul Wallenberg Lecture* ,1972 **Remembering Raoul Wallenberg** Penny Schreiber,Joan Lowenstein,2001 A celebration of the lives of lives that have been devoted to the struggle for human rights and individual freedom Whatever Happened to Raoul Wallenberg?
