in Assessment and Learning in Contemporary Education Anton Havnes, Liz McDowell, 2007-11-21 This book focuses on dilemmas inherent in the practice of assessment in the contemporary context. New forms of assessment are being introduced in all sectors of education and training and the culture of assessment is shifting. The authors in this volume discuss the practice of assessment reporting empirical research on modes of assessment within a variety of educational contexts while also addressing conceptual and theoretical aspects of assessment. Educational institutions worldwide are adopting a range of principles using a variety of assessment methods and developing assessment literacy. All these issues must be considered when researching inclusive assessment practices and policies.
