## Option Plays:

*Football Offenses and Plays* American Football Coaches Association, 2006 *Football Offenses Plays* presents all of the popular offensive systems used today as well as tactical advice for play calling in each of four areas of the field. It features insights from many of the game's top offensive minds who have conceived or are extremely successful in employing a specific means of attack. Discover the strengths of the I Formation from Al Borges and the use of the H back from Joe Novak. Maximize the use of one back sets using two three or four receivers with the help of Glen Mason, Joe Tiller and Gregg Brandon. Make the shotgun a real weapon with the insights of Randy Walker and Rich Rodriguez. Learn how to use four receivers from shotgun formations from Rich Rodriguez. Trace the development of running attacks including the veer with Bill Yeoman, the wing T with Tubby Raymond and flexbone with Fisher DeBerry. Execute soundly in the yellow zone, green zone, red zone and gold zone with guidance from Dennis Franchione, Ralph Friedgen, Larry Kehres and Terry Malone. Employ the best strategies for two minute and no huddle situations with advice from Gary Tranquill. Help your quarterback make effective play calls at the line of scrimmage with the audible system presented by Don Nehlen. Developed by the American Football Coaches Association, *Football Offenses Plays* is the most detailed and comprehensive book on offensive tactics ever published. Make it part of your game plan this season and see your side of the scoreboard light up. *Complete*

### **Uncertainty in individual and social decisions**

Stefan Tobias Trautmann, 2008 In most decisions we have to choose between options that involve some uncertainty about their outcomes and their effect on our well-being Casual observation and carefully controlled studies suggest that in making these decisions we often deviate from the benchmark of expected income maximization This should not come as a surprise Our well-being is affected by many factors and the outside observer does not know the importance of various dimensions of the outcome to the decision maker Even if goals are well defined it is far from obvious that we succeed in choosing what is best for us The psychological literature has shown deviations from optimal behavior in simple decision tasks and we may expect similar deviations to occur in more complex real-life problems In real-life situations however experience and market interaction will help to restrain suboptimal behavior This thesis examines deviations from expected income maximization in situations involving uncertainty We focus on deviations generated by social factors
