**Law Librarianship Practice** Ellyssa Kroski,2025-07-10 This ground breaking new legal librarianship book serves as an invaluable resource for practicing law librarians who want to be at the forefront of information technology and law libraries Law librarianship is a constantly evolving field that has seen major shifts in practice over the past several years including the post pandemic trend towards remote and hybrid work the increased prominence of virtual services the outsourcing of library staff burgeoning cybersecurity risks and the advent of generative AI Law librarians have adroitly adapted to all of these changes and have once again proven their resilience Law Librarianship Practice is a cutting edge book that provides insights into the latest emerging trends and technologies in academic government and law firm librarianship This book offers guidance from forward thinking library leaders on how they are tackling the challenges of law librarianship today including managing remote workforces negotiating with vendors navigating outsourcing services planning for emergencies riding out law firm mergers succession planning and more Experts working in the field provide practical applications of new technologies and opportunities such as how librarians are conducting AI informed competitive intelligence using big data for decision making and what's happening in artificial intelligence The book also covers innovative initiatives in the areas of diversity equity and inclusion Access to Justice and more Law Librarianship Practice serves as a comprehensive manual of modern day law library practices providing invaluable resources for law librarians Readers will gain inspiration from nearly thirty chapters contributed by distinguished academic government and law firm librarians as well as library consultants who share their experience along with a combination of

researched data contract excerpts surveys and other real world intelligence Divided into three segments readers will be led through twenty eight chapters in the areas of Law Library Management Law Library Technologies and Law Library Challenges and Opportunities      How We Vote Kathleen Hale,Mitchell Brown,2020-06-01 The idea of voting is simple but the administration of elections in ways that ensure access and integrity is complex In How We Vote Kathleen Hale and Mitchell Brown explore what is at the heart of our democracy how elections are run Election administration determines how ballots are cast and counted and how jurisdictions try to innovate while also protecting the security of the voting process as well as how election officials work Election officials must work in a difficult intergovernmental environment of constant change and intense partisanship Voting practices and funding vary from state to state and multiple government agencies the judicial system voting equipment vendors nonprofit groups and citizen activists also influence practices and limit change Despite real challenges and pessimistic media assessments Hale and Brown demonstrate that election officials are largely successful in their work to facilitate protect and evolve the voting process Using original data gathered from state and local election officials and policymakers across the United States Hale and Brown analyze innovations in voter registration voting options voter convenience support for voting in languages other than English the integrity of the voting process and voting system technology The result is a fascinating picture of how we vote now and will vote in the future      **Cyber Security** Mustafa Ahmed,David White,2020-07 This book answers the key cybersecurity questions What should we do Where should we start What to do in an emergency What to do on an ongoing basis It is all presented as a neat framework in the shape of ESORMA Plus there is an online portal full of supporting tools that is free to access with the purchase of this book ESORMA is a short easy process that copes well with Governance Compliance Operations and of course the business itself Whether you plan to apply NIST ISO 27001 etc Cyber Essentials or any other security standard This book will make your life easier in practice and implementation more effective ESORMA came about because the authors both cybersecurity veterans and trainers find students love the content we deliver but tell us their colleagues and managers in the real world care about one thing reducing costs Security we are told just seems to add costs and slow things down We feel strongly that it is our objective and duty to see if we can do something to change that narrative The real issues are not about technology everyone seems to have a very good handle on the tech It seems to be about how to do it and communicating the why to get others to take action which is the activity that always provides the biggest bang per buck when it comes down to security common sense in practice Nowadays every organisation that has assets to secure one way or another has a Chief Information Security Officer a CISO whether they know it or not Even if no one has the title the role exists This book is nothing more than a quickstart guide It does not go into depth or endless theory there are lots of great courses that can give you all of that This book cuts out the fat and provides lists of options areas and ideas to consider with checklists case studies and more so you can make progress and achieve noticeable results quickly to truly benefit the business and your career The process is always

business operations first the framework second The framework provides the basis for review not as a dogma to rigidly follow It is based on a star topology putting you in the middle in control ready to go in any direction that suits you It is this core centricity that reveals the flexibility of this framework It touches on all the areas you need to take action quickly it is not necessary to cover all the other steps first There are frameworks that look great on the surface yet fill you with dread when you start to realise what is truly involved They are not wrong just the approach unnecessary We believe you need to focus on the business first and you need to know what should be done first in practice that s all Training and certification is useful and necessary this is not a replacement although this may well help you with your Continuing Professional Education credits especially if you use the tools available from within the ESORMA portal that you will also have access to
