International Education Aid in Developing Asia I-Hsuan Cheng, Sheng-Ju Chan, 2015-05-22 This book provides an Asian perspective on the timely urgent questions of how international education aid and development should move forward and what development roles Asia should play especially following the end of the UN Millennium Development Goals MDGs and Education for All EFA in 2015. To answer these questions four separate but interwoven parts which analyze and anchor education MDGs and EFA policies and practices by means of diverse case studies of donor states recipient states and states with a dual and transitional role in Asia are addressed. On the basis of the analyses a clearer and concrete direction for effectively and sustainably extending

international education aid and development beyond 2015 can be derived **Global Trends in Human Resource Management** Edward E. Lawler III, John W. Boudreau, 2015-06-24 Since 1995 USC's Center for Effective Organizations CEO has conducted the definitive longitudinal study of the human resource management function in organizations. By analyzing new data every three years since then the Center has been able to consistently chart changes in how HR is organized and managed while at the same time providing guidance on how professionals in the field can drive firm performance. **Global Trends in Human Resource Management** the seventh report from CEO provides the newest findings about what makes HR successful and how it can add value to organizations today. Edward E. Lawler III and John W. Boudreau conclude that HR is most powerful when it plays a strategic role, makes use of information technology, has tangible metrics and analytics, and integrates talent and business strategies. To adapt to the demands of a changing global marketplace, HR is increasingly required to span the boundaries between its function, the organization as a whole, and the dynamic environment within which it operates. This report tracks changes in a global sample of firms that shows how HR differs across Europe, the U.S., and Asia, providing an international benchmark against which to measure a company's practice and shows how HR can adapt in a rapidly changing landscape.
