Adolescence in Context Tara L. Kuther, 2025-08-26. *Adolescence in Context* by award-winning author Tara L. Kuther is a topically oriented text that connects learners to the science shaping our understanding of today's teenagers and young adults. Organized around three core themes: the centrality of context, the importance of research, and the applied value of developmental science, the text presents classic and current research along with foundational theories framed in real-life intersectional contexts such as sex, gender, race, ethnicity, ability, and socioeconomic status. With the new Second Edition, students can expect to gain a deeper understanding of adolescence that they can apply to their personal lives and future careers. *Social Studies Review*, 2005. [Review Journal of Philosophy & Social Science](#), 2003.

The Media in Your Life Jean Folkerts, Stephen Lacy, 2004. What do reviewers have to say about *Media in Your Life*? The text's strengths are on the emphasis on media history, convergence trends, and marketplaces. I also appreciate that the text is written at a sophisticated yet appropriate level for college students. Kim Smith, Iowa State University. The material covered is essential to the understanding of the current student in today's media culture. Jeanne Rollberg, University of Arkansas, Little Rock. Authors that forget that they are teachers and try too hard to pretend they're the students' friends don't do their content justice, nor do they model appropriate writing for students to emulate. Folkerts and Lacy don't fall into this trap; they present material credibly, appropriately, and yet readably. Rebecca Lind, University of Illinois, Chicago. The overall strengths of *Media in Your Life* are that it is exhaustively researched and attractively presented. The broad topic of mass media is effectively structured into an accessible format. Randall K. Pugh, Montana State University, Billings. The book's emphasis on knowledge students can use in navigating our complex culture is a major strength. Its
