Global Communication Thomas L. McPhail,Steven Phipps,2019-10-11 Discusses the players theories and trends that affect how the world communicates and gets their information This book is the most definitive text on multinational communication and media conglomerates exploring how global media influences both audiences and policy makers around

the world. Comprehensively updated to reflect the many fast moving developments associated with this dynamic field this new edition investigates who and where certain cultural products are coming from and why and addresses issues and concerns about their impact all over the world. Global Communication Theories Stakeholders and Trends 5th Edition is framed by two theories. One is World System Theory (WST) which views nations through an economic lens. The other is Electronic Colonialism Theory (ECT) which views nations through a cultural lens. Through these theories the book examines broadcasting, mass media and news services ranging from MSNBC, MTV and CNN to television sitcoms and Hollywood export markets. It investigates the roles of the major players such as News Corp, Sony, the BBC, Disney, Bertelsmann, Viacom or Time Warner and probes the role of advertising and the Internet and their ability to transcend national boundaries and beliefs. New chapters look at the growing importance and significance of other major regions such as the media in the Middle East, Europe and Asia. Outlines the major institutions, individuals, corporations, technologies and issues that are altering the international information, telecommunication and broadcasting order. Focuses on a broad range of issues ranging from social media and new services like Netflix as well as Arab and Asian media. Explains and interprets three major movements or theories: NWICO, Electronic Colonialism and World System Theory. Includes major updates to the chapter on the Internet to incorporate global events over the last 5 years such as Russian use thereof, Facebook, Google, Looks at how streaming services such as Netflix, Amazon, Spotify and more have emerged as dominant players in world entertainment. Offers an updated instructor's website with instructor's manual, test banks and student activities. Global Communication Theories Stakeholders and Trends 5th Edition is intended as an upper level undergraduate text for students in courses on International Global Communication, Global Media Journalism and Media Systems in Journalism, Communications or Media Studies Departments.

SPOTIFY: HOW THE COMPANY USES DATA TO INFLUENCE

MUSIC TASTES AROUND THE WORLD MAX EDITORIAL,2025-04-15 Introduction to the World of Data and Spotify The digital revolution has transformed the way we consume music and Spotify is one of the biggest drivers of this transformation The streaming app launched in 2008 has grown exponentially not just as a music service but as a platform that analyzes collects and uses data on its users behavior to personalize the music experience for billions of people around the world The key to Spotify s success is not only its vast library of music but its ability to use data to influence shape and even predict users musical tastes The Era of Music Streaming Before Spotify the music industry was dominated by CD purchases individual downloads and of course radio While radio has been a dominant platform for introducing new music for decades it has its limitations Spotify with its data driven model has revolutionized this dynamic by offering nearly unlimited access to music while also personalizing track suggestions based on users listening behavior The Power of Data Spotify s biggest advantage over other music platforms is its ability to capture data Every time a user listens to a song skips a track or saves a song to a playlist Spotify collects this information and uses it to improve its music recommendations Spotify s recommendation algorithm is powered by a wealth of data about users preferences creating a personalized experience for each user How Data Shapes Music Preferences Data collection goes beyond just choosing songs Spotify monitors listening time playlist engagement repeat tracks and even the times when a user is most likely to listen to a certain style of music This data is then processed to create a detailed profile of each user helping the platform predict which songs are most likely to appeal to them Practical example Imagine that you are a fan of pop music and frequently listen to the most popular tracks on
