Trauma Survivor's Guide To Healing **Thriving in the Wake of Trauma** Thema Bryant-Davis, 2005-06-30 Race ethnicity sexual orientation migration status religion and many other cultural factors play an important role in recovery from a traumatic event. Here, a psychologist describes how to recognize the cultural issues that need to be considered for healing. She offers vignettes illustrating these issues as well as activities for traumatized people to regain their sense of self-esteem, safety, strength, and calm.
