## **Managing Interpersonal Conflict:**

**Managing Interpersonal Conflict** William A. Donohue, Robert Kolt, 1992-07 Managing Interpersonal Conflict helps readers better understand and ultimately manage their routine interpersonal conflicts. Specifically the book walks readers through the conflict process from the initial decision of whether or not to confront differences to how to plan the actual confrontation. Donohue deals extensively with the negotiation process and if negotiation proves unsuccessful with third party dispute resolution. The book emphasizes keeping conflicts under control and keeping focused on the issues. The key to managing conflict is to address differences collaboratively so parties can create better solutions and ultimately strengthen their relationships. Managing Interpersonal Conflict prepares and encourages the reader to stop avoiding their conflicts and start confronting them. Designed for college and university undergraduates, Donohue's text and the Interpersonal Commtext series will also interest students and professionals in management studies, sociology, organization studies and social psychology. They provide a very useful look at a somewhat broader than usual range of conflict issues. Where the decision is to confront it offers useful approaches to allowing face saving and to issue structuring that will allow the conflict in many cases to be readily resolved. The second section provides a useful and easily worked with framework for negotiating and deals most effectively with the use of and responses to the exercise of power in the negotiation context. The book is exceptionally readable and effective in its presentation of approaches to conflict. While it is not a traditional academic text, periodic references to the conflict literature are used to allow the reader to examine the issues presented in more depth. The book will serve as an outstanding text for a training program in conflict management and can also be used by an individual effectively to learn these techniques.

**The Alternative Newsletter** **Managing Interpersonal Conflict** Nancy A. Burrell, Mike Allen, Barbara Mae Gayle, Raymond W. Preiss, 2014-02-05 Managing Interpersonal Conflict is a systematic review of conflict research in legal, institutional and relational contexts. Each chapter represents a summary of the existing quantitative social science research using meta-analysis with contexts ranging from jury selection to peer mediation to homophobia reduction. The contributors provide connections between cutting edge scholarship about abstract theoretical arguments, the needs of instructional and training pedagogy and practical applications of information. The meta-analysis approach produces a unique informational resource offering answers to key research questions addressing conflict. This volume serves as an invaluable resource for studying conflict mediation, negotiation and facilitation in coursework, implementing and planning training programs, designing interventions, creating workshops and conducting studies of conflict.

*Competence in Interpersonal Conflict* William R. Cupach, Daniel J. Canary, Brian H. Spitzberg, 2009-11-06 Extensively updated with expanded and newly added chapters, the second edition of *Competence in Interpersonal Conflict* continues to present a conceptual framework for why communication competence is central to conflict management. Although no checklist of communication behaviors can guarantee success, the authors offer constructive guidelines that provide a basis for grappling with future conflicts in five unique settings: intercultural, organizational, familial, mediation, and violence in intimate relationships. Within any conflict interaction, adept communicators embrace the notion that adopting an ethical stance is both desirable and practical. Conflict between people is a natural feature of the human condition; when people interact and form relationships, conflicts inevitably emerge. How individuals manage conflict and how they perceive both the opportunities and challenges it provides will define their interpersonal relationships in more ways than any other kind of interaction behavior. Collaboration and adaptation are the hallmarks of a competent communicator; therefore, how partners communicate during
