Project Managers keep track of managing multiple projects on a monthly basis. We all know how tough it can be to keep projects organized. What did I do today? What do I need to do for tomorrow? What is the project status? Did I remember to write down what was said in my team meeting or the meeting with my manager? Did I send out that email? These are common questions that we all go through on a daily basis as Project Managers. I decided after 13 years of being a Project Manager with my PMP to come up with a monthly system to ensure that I am appropriately managing my time as a Project Manager on multiple projects. This planner will guide you through a 31 day process of managing multiple projects. Included in the planner are the following: Action Log, Daily Calls, Current Situation, and Next Steps. Project Phases, Major Project Milestones, Team Meetings, Manager Meetings, 1:1 Weekly Goals, Monthly Goals, Achievements, Lessons Learned, Plan Ahead, Monthly Overview. This is a simple yet structured planner for monthly use. The goal is to provide a framework for the user to be able to incorporate their own details. There are no dates or years in this planner. This allows you to start as soon as you want. Enjoy this planner.

Dinsmore and Cooke Davies help managers answer these questions by providing them with the information they need to implement an enterprise wide project management environment.
