Managing Innovation In New Zealand:

Advances in Engineering Management, Innovation, and Sustainability James Olabode Bamidele Rotimi, Wajiha Mohsin Shahzad, Monty Sutrisna, Ravindu Kahandawa, 2024-07-09 This book contains a selection of papers from the 13th International Conference on Engineering Project and Production Management EPPM held in Auckland New Zealand from 29 November to 1 December 2023. The conference was organized by the School of Built Environment Massey University in collaboration with the EPPM Association. The book comprises of quality assured theoretical discussions, data analysis, case studies, and industry practices presented by global researchers and practitioners. The conference theme was 'Creating capacity and capability re energizing supply chain for sustainable management of projects and productions in engineering' and this volume focuses on papers related to engineering management innovation and sustainability. The papers are comprehensive, multidisciplinary, and advanced and will be of interest to researchers and practitioners from various industries seeking the latest updates on the fields of engineering project and production management. Developing and Managing Innovation in a Fast Changing and Complex World Stig Ottosson, 2018-06-27 This book provides essential insights into how to rapidly and safely develop new sustainable products no matter whether it is in the private sector, the public sector, or the non profit sector and regardless of the specific national or business culture. The principles discussed were distilled from experiences and insights gained in numerous practical innovation endeavors and from insider action research in connection with ongoing development, change management, and innovation projects in various areas and branches of the business world and non commercial sector. In short, the practical work and research has revealed that regardless of the specific product and or business to be developed, clear advantages can be gained by using dynamic or agile methods based on modern theories. These advantages include reduced risk of failure, shorter time to market, less money and effort spent, better outcome, solutions etc than when classical methods are used. Accordingly, the book also highlights the differences between the classical traditional and dynamic mindset and approaches. It offers suggestions on how to think, organize, lead, and act in order to excel in an increasingly complex and non linear world. The more you can assimilate the theories, principles, and methods and integrate them in the culture you operate in, the greater the benefits will be for you and your organization.

Proceedings of the 2025 3rd International Academic Conference on Management Innovation and Economic Development (MIED 2025) Barbara Siuta-Tokarska, Adriana Grigorescu, Md.
