Narayanan, 2001 This is the first book to provide an integrated strategic view of management of technology Focusing on both theory and practice it addresses the contemporary challenges general managers face today e.g globalization time compression technology integration and explores several strategic approaches for dealing with them from both a managerial and economic viewpoint Several integrative themes T M matrix environmental drivers process of decision making competitive vs collaborative approaches and value creation are followed throughout Technology Environment Processes Of Technology Change Innovation And Diffusion Technology And Competition Process Innovation Value Chains And Organization Technology Intelligence Technology Strategy Collaborative Mode Appropriation Of Technology Deployment In New Products Deployment Of Technology In The Value Chain Organizing For Innovation Intellectual Property Strategy Project Valuation And Financing For Chief Technology Officers Directors of Technology R Chief Information Officers

Strategic Planning Decisions in the High Tech Industry Dilek Cetindamar, Tugrul Daim, Berna Beyhan, Nuri Basoglu, 2013-02-05 The scale and complexity of research and practices of open innovation mandate a correspondingly sophisticated form of decision making Strategic Planning Decisions brings together a number of tools that ease the decision process in technology companies providing both conceptual frameworks and practical applications Innovative approaches are presented such as an ontology based model where all the relevant aspects of a potential technology are interrelated to provide a comprehensive and logically connected data pool for decision makers Divided into two sections Strategic Planning Decisions describe both strategic approaches using the decision tools and tactical approaches Some of these tools are expanded while some others are embedded in a model that will lay the ground for practical application These include bibliometric analysis ontology roadmapping lead user six sigma and multi actor multi objective decision making methods Recent research and relevant theory are balanced with up to date practical applications and hands on techniques making Strategic Planning Decisions ideal for engineers who wish to keep up to date with current ideas in the field of TM It also provides workable methods for practising managers from all levels who wish to apply a more rigorous approach in their work and consultants concerned with technology assessment and its management

Strategic Decision Making in Modern Manufacturing Harinder Singh Jagdev, Attracta Brennan, J. Browne, 2013-06-29 Strategic Decision Making in Modern Manufacturing introduces and explains the AMBIT Advanced Manufacturing Business Implementation approach which has been developed to bridge the gap between strategic management considerations and the operational effects of technology investment decisions on the manufacturing organisation so that the likely impact of new manufacturing technology and or programme implementations can be evaluated anticipated and accurately predicted The AMBIT approach focuses specifically on the non financial aspects of such investment decisions and offers an approach that allows a manager

or more frequently a management team to understand the impacts of a new technology or a new programme on the manufacturing organisation in terms of manufacturing performance **Strategic Management and Core Competencies**

Anders Drejer,2002-06-30 Managers and management scholars alike need operational models and concepts for dealing with core competencies within strategic management This book provides tools for the practitioner as well as fundamental theoretical concepts to enable scholars to further build upon Drejer s work His main argument is that understanding core competencies is key to explaining why some firms enjoy a competitive advantage over others Drejer proposes models and means with which managers can proactively identify design and develop their firm s core competencies in strategic alignment More than merely a how to book this work places an equal emphasis on the concepts behind competence based strategy The author offers the reader multiple perspectives on the background of competence based strategy the relationship between strategic management and the development of core competencies and the application of competence based strategy to praxis He provides the tools necessary to identify analyze and develop the competencies of a firm and in so doing performs a valuable service for practitioners and researchers **Strategic Management and Competitive Advantage**

Manikant Singh,2008 Strategic Management and Competitive Advantage provides the most accurate relevant and complete presentation of strategic management today This book is thoroughly updated to include cutting edge research and trends that are shaping business strategy The editor guides students through the strategic management process using a unique model that blends the classic industrial organisational model with the resource based view of the firm to explain how firms use the strategic management process to build a sustained competitive advantage The text includes current and relevant examples to provide context for key concepts outstanding figures and models to illustrate key points and other section contains engaging and exemplary cases that cover a broad range of critical issues confronting managers today **Recent**
