Arguments and Arguing Thomas A. Hollihan,Kevin T. Baaske,2015-11-17 The latest edition of Arguments and Arguing contains the same balance of theory and practice breadth of coverage current and relevant examples and accessible writing

style that made previous editions so popular in hundreds of classrooms. The authors draw from classic and recent argumentation theory and research contextualized with well-chosen examples to showcase a narrative style of argumentation and the values and attitudes of audiences. Readers learn how to employ both formal and informal argumentative strategies in an array of communication forums from interpersonal interactions to academic debate to politics to business. A newly added chapter on visual argumentation and a striking color photo insert demonstrate the value and power of visual elements in the construction of arguments. The ability to argue is necessary if people are to solve problems, resolve conflicts, and evaluate alternative courses of action. While many are taught that arguing is counterproductive and arguments should be avoided, Hollihan and Baaske illustrate that arguing is an essential and fundamental human activity. Learning the art of effective argumentation entails a grasp of not only the strategies and principles of analysis and logical reasoning but also the importance of arguing in a positive and socially constructive fashion.

New Media in Times of Crisis Keri K. Stephens, 2019-05-02. *New Media in Times of Crisis* provides an interdisciplinary look at research focused around how people organize during crises. Contributors examine the latest practices for communicating during crises including evacuation practices, workplace safety challenges, crisis social media usage and strategies for making emergency alerts on U.S. mobile phones constructive and helpful. The book is grounded in the practices of first responders, crisis communicators, people experiencing tragic events and communities who organize on and offline to make sense of their experiences. The authors draw upon a wide range of theories and frameworks with the goal of establishing new directions for research and practice. The text is suitable for advanced students and researchers in crisis, disaster and emergency communication.

Intercultural Issues in the Workplace Katerina Strani, Kerstin Pfeiffer, 2023-12-22. This textbook addresses key issues and challenges in contemporary multicultural and multilingual workplaces through the lens of leadership, communication and trust. It draws together contributions from fields including cultural studies, psychology, sociolinguistics, translation and interpreting studies and business management, making a valuable contribution to the area of language and culture in the workplace. The volume is divided into 5 thematic sections: Intercultural Communication, Cross-cultural Leadership, Economy, Language and Diversity. It offers a critical analysis on themes that tend to be overlooked in intercultural business and management scholarship, such as multilingualism in the workplace, translation and interpreting in cross-cultural work practices, dignity in the workplace, performing gender in the workplace and deaf people in the workplace. It also revisits themes such as cross-cultural leadership, interculturality and the embedded economy, and managing uncertainty in the context of the contemporary globalized workplace. It then brings everything together in a Cross Cultural Scenarios chapter at the end, with recommendations for every scenario. Overall, the textbook constitutes an essential resource for honours undergraduate and postgraduate students in these and related fields, as well as academics and practitioners with an interest in globalised workplaces.
