among all Hindu sculptures and rightly so It has evoked highly advanced discussions among scientists philosophers  
performing artists art critics art collectors historians archaeologists and mythologists The Nataraja sculpture also occupies a  
pride of a place at CERN the European Centre for Research in Particle Physics in Geneva Siva according to Hindu Mythology  
was the very first dancer in the world All dramaturgy and dance traditions emerge from Siva s cosmic dance Tandava Siva s  
disciple narrated the description of Siva s dance to Bharata Muni and he is believed to have compiled the Natyasastra the  
world s first treatise on dramaturgy dance and other performing arts Scholars believe that the Natyasastra was written over  
a long period of time between the 2nd century BCE and 2nd century CE with contributions from various sages with its  
foundation having been laid by Bharata Muni Convergence between Hindu mythology Natyasastra and Silpasastra was the  
natural outcome Karnataka and its temple architecture tradition played a pioneering role in giving an artistic form to this  
convergence in its temple sculptures Though this trend may have started earlier during 2nd and 3rd century CE it started to  
take the center stage from the times of the Badami Chalukyas Passing through various refinements between 5th and 10th  
centuries it reached its peak with the Hoysala art This book traces the history of temple sculpture evolution and development  
through the centuries by referring to the existing sculptural forms and the canonical literature that developed over time
