The Routledge Handbook of Chinese Discourse Analysis Chris Shei, 2019-01-14

Chinese is a discourse oriented language and the underlying mechanisms of the language involve encoding and decoding so the language can be correctly delivered and understood To date there has been a lack of consolidation at the discourse level such that a reference framework for understanding the language in a top down fashion is still underdeveloped The Routledge Handbook of Chinese Discourse Analysis is the first to showcase the latest research in the field of Chinese discourse analysis to consolidate existing findings put the language in both theoretical and socio functional perspectives offer guidance and insights for further research and inspire innovative ideas for exploring the Chinese language in the discourse domain The book is aimed at both students and scholars researching in the areas of Chinese linguistics and discourse analysis *A Reference Grammar of Mandarin Chinese for English Speakers* Chauncey Cheng-hsi Chu, 1984 This reference grammar provides a description of Mandarin Chinese in familiar terms and enables the English speaking reader to transfer his her knowledge of English to the study of Chinese Many of the unique features of the language are treated through a comparison with semantically corresponding though syntactically different features in English Aside from the conventional types of sentences special constructions are amply explained and illustrated for the reader Understanding the specific meaning of each of these constructions is one of the central themes of the grammar This book contains a number of original analyses such as that of the shi de construction and the notion of continuum for the indiscrete nature of linguistic structure which should serve as a valuable reference source for both the language teacher and the profession of Chinese linguistics

Chinese Lexical Semantics Minghui Dong, Yanhui Gu, Jia-Fei Hong, 2022-06-15 The two volume proceedings LNCS 13249 and 13250 constitutes the thoroughly refereed post workshop proceedings of the 22nd Chinese Lexical Semantics Workshop

CLSW 2021 held in Nanjing China in May 2021 The 68 full papers and 4 short papers were carefully reviewed and selected from 261 submissions They are organized in the following topical sections Lexical Semantics and General Linguistics Natural Language Processing and Language Computing Cognitive Science and Experimental Studies Lexical Resources and Corpus Linguistics

Clause Combination in Chinese Halvor Eifring, 2021-09-13 Clause Combination in Chinese is an abundantly documented study of composite sentences in Modern Chinese their semantic properties and syntactic behaviour It discusses the extent of language variation the relation between synchrony and diachrony the nature of grammaticalization generality and gradience and the non uniqueness of syntactic analysis The first part provides a new categorization of clause combinations and clause connectives It introduces a class of connectives often combining units larger than the sentence It also discusses the frequent non use of clause connectives in Chinese composite sentences The second part contains case studies of composite sentences with unusual semantic properties among them a hitherto unrecognized pattern with no English counterpart adverbial clauses expressing necessity The book should be of interest to all students of Chinese linguistics and to general linguists concerned with sentence complexity

An Introduction to Government-binding Theory in Chinese Syntax Yuanjian He, 1996 One of the major concerns of current linguistic theory is to determine the set of general principles to which the syntactic structure of all natural languages conforms and in this connection it is important to examine a variety of language families and types Though since the 1980s current linguistic theories such as the government binding theory have been applied to Chinese this volume takes up issues to which previous investigations did not pay much attention or gave less comprehensive treatment Its analysis of many aspects of Chinese syntax based on careful examination of data should be of interest and value to Chinese linguists whether G B oriented or otherwise

Corpora in Interpreting Studies Andrew K.F. Cheung, Kanglong Liu, Riccardo Moratto, 2023-12-01 Cheung Liu Moratto and their contributors examine how corpora can be effectively harnessed to benefit interpreting practice and research in East Asian settings In comparison to the achievements made in the field of corpus based translation studies the use of corpora in interpreting is not comparable in terms of scope methods and agenda One of the predicaments that hampers this line of inquiry is the lack of systematic corpora to document spoken language This issue is even more pronounced when dealing with East Asian languages such as Chinese Japanese and Korean which are typologically different from European languages As language plays a pivotal role in interpreting research the use of corpora in interpreting within East Asian contexts has its own distinct characteristics as well as methodological constraints and concerns However it also generates new insights and findings that can significantly advance this research field A valuable resource for scholars of scholars focusing on corpus interpreting particularly those dealing with East Asian languages

The Right Periphery in L2 Chinese Shanshan Yan, 2022-12-29 The Right Periphery in L2 Chinese is among the first books to try to incorporate both advanced linguistic and acquisition perspectives to show how eight sentence final particles are represented in English speaking learners L2 Chinese

This book will inform researchers of the general construction of the right periphery in L2 grammars Drawing on up to date theoretical frameworks and findings from advanced empirical studies it sketches the general picture of the periphery that these particles occupy in English Chinese interlanguages Readers will grasp the problems and difficulties and particularly the ambiguities which learners of Chinese must grapple with in the process of acquiring sentence final particles Possible influential factors underlying the acquisition process are explicitly discussed as well Researchers will also find insights in the advanced methodologies and statistics that are used to study Chinese The book will be illuminating for researchers interested in SLA linguists of generative theories and educators teaching Chinese as a second foreign language
