The Men from the Boys Ray Raphael,1988 In other times and places the passage from boyhood to manhood was dramatized and facilitated by initiation rites In ritualized fashion the complex problems of personal development were translated into clear and concrete tasks But in the dazzling variety of modern America there is no universal test or ceremony that bestows manhood each male must find a group with its special initiations or devise an initiation of his own He may climb mountains play football join the army pledge fraternities impress the girls and get drunk with the guys But where do these free style initiations lead in the end To find out Ray Raphael conducted in depth interviews with one hundred American males ranging from a Mr America body building to a practitioner of witchcraft from a right stuff fighter pilot to a draft dodger from a self proclaimed Don Juan to a superdad The Men from the Boys is the first and only book length study of contemporary simulations of classical male initiations The results of this study are unsettling Initiations today function more as tests to determine who can make the grade than as educational tools that encourage the development of all young men In the absence of inclusive rituals Raphael s subjects struggle to overcome doubts as they negotiate their own paths to maturity Their personal tales told with dramatic and emotional intensity speak to all American males who find themselves torn between a unisex modernity and more archaic notions of masculinity Jacket
