Mankinds Oedipal Destiny:

Mankind's Oedipal Destiny Peter Hartcollis,2001 Lectures on Violence, Perversion and Delinquency David Morgan,Stanley Ruszczynski,2018-04-24 In this volume contemporary staff describe their thinking and clinical work Theoretical underpinnings for the understanding of perversion and violence questions of risk and ethics and the institutional difficulties which emerge in the care of these patients are presented alongside chapters on clinical work with adults and adolescents including chapters on paedophilia the compulsive use of internet pornography and transsexuality This volume is of relevance to all those working with people with a range of personality disorders and those working with individuals who present with these types of problems in the mental health services and in private practice The Portman Clinic has been applying a psychoanalytic framework to the understanding and treatment of violent perverse criminal and delinquent patients since its foundations in the early 1930 s All Portman Clinic patients have crossed the boundary from fantasy and impulse to action action which defies legal and moral boundaries but which also breaches the body boundary of the victims

Psychoanalysis, Fatherhood, and the Modern Family Liliane Weissberg,2021-10-30 To what extent are the concepts of fatherhood and family as proposed by Sigmund Freud still valid Psychoanalysis Fatherhood and the Modern Family traces the development of Freud s theory of the Oedipus complex and discusses his ideas in the context of recent psychoanalytic work new sociological data and theoretical explorations on gender and diversity Contributors include representatives from many academic disciplines as well as practicing psychoanalysts who reflect on their experience with patients Their exciting essays break new ground in defining who a father is and what a father may be **Aggression and Destructiveness** Celia HARDING,2006-09-27 Why when and how does aggression go wrong How can we make sense of apparently meaningless destructiveness and violence Aggression is a part of human nature that energises our relationships acts as an impetus for psychic development and enables us to master our world More often we focus on its more destructive aspects such as the violence individuals inflict on themselves or others and overlook the positive functions of aggression In Aggression and Destructiveness Celia Harding brings together contributions from experienced psychoanalysts and psychoanalytic psychotherapists to explore the roots of aggression and the clinical dilemmas it presents in psychotherapy Beginning with accounts of aggression and destructiveness from a range of developmental and theoretical perspectives the book provides useful insights into subjects including Bullying and abusive relationships Male and female violence and destructiveness Depressive perverse and psychotic states of mind Attacks on therapeutic treatment This book makes a valuable contribution to the attempt to make sense of human aggression destructiveness and violence perpetrated against the self others and reality It will be of great interest to trainee and qualified psychodynamic counsellors psychoanalytic psychotherapists and psychoanalysts All of Me Andrée Dignon,2007 Anorexia is one of the most puzzling illnesses of our time Recent decades have seen a growth in the disorder which now affects more than one in 100 women This book presents compelling new data

from 104 anorexics that challenges established opinion about what kind of people contract the disorder Writing from a sociological perspective the author asks if medical definitions of anorexia always reflect patients experiences and if the stereotype of the anorexic as a fat phobic middle class adolescent is genuinely supported by data By combining moving testimony in patients own words together with demographic findings and sociological comment the author demonstrates that all kinds of women from all sorts of backgrounds can and do develop anorexia The author offers a new perspective that demands a more inclusive definition of the disorder which reflects the moving accounts presented in this book She shows that the causes of anorexia are as varied as the patients who experience it The Corsini Encyclopedia of Psychology, Volume 3 Irving B.
