Acclaimed astrologer Erin Sullivan takes us through the vast changes that astrology reveals as we reach middle age. It is a moment in life that is characterized by the planet Uranus, one filled with opportunities to both rethink the past and move forward toward the future, witnessing our lives in the way Uranus connotes. **Fostering Development in Midlife and Older Age** Irina Catrinel Crăciun, 2023-02-22. This handbook integrates and discusses a growing evidence base concerning individual development across middle and late adulthood. The book includes a comprehensive analysis of what growth implies within midlife and older age and considers how different developmental areas are intertwined: i.e. physical, cognitive, social, and emotional development, as well as personality growth. As the gap between theory and practice still constitutes an issue in developmental research, the handbook also aims to provide illustrative examples of prevention and intervention from a positive psychology perspective. These were selected to represent a variety of topics relevant for individual development where research informs practice, ranging from happiness, grandparenthood, love, and sexuality to loneliness, depression, anxiety, suicide prevention, and coping with death. This handbook is a must-have resource for students and researchers working in developmental psychology, health psychology, gerontology, and public health. It will also be of interest to practitioners such as counsellors, life coaches, psychotherapists, organizational psychologists, health professionals, social workers, or public health planners.

**Sexuality in Midlife and Beyond** Stephanie Slon, Jan Leslie Shifren, 2010. Sexual problems are nearly always intertwined with psychological and relationship issues. As a result, treating the physical problem if one is present is only half the job. If sexual issues persist for any length of time, performance anxiety, anger, frustration, low self-esteem, lack of physical affection between you and your partner, and a sense of hopelessness can further harm your sex life. So can a tendency to blame yourself or your partner for the problem. Most people need help repairing the emotional distance created by the problem before they can regain a healthy sexual relationship.
