## **Middle Class Radicalism In Santa Monica:**

*Middle Class Radicalism in Santa Monica* Mark E. Kann, 1986      *The Radical Middle Class* Robert D.

Johnston, 2013-10-31 America has a long tradition of middle class radicalism albeit one that intellectual orthodoxy has tended to obscure The Radical Middle Class seeks to uncover the democratic populist and even anticapitalist legacy of the middle class By examining in particular the independent small business sector or petite bourgeoisie using Progressive Era Portland Oregon as a case study Robert Johnston shows that class still matters in America But it matters only if the politics and culture of the leading player in affairs of class the middle class is dramatically reconceived This book is a powerful combination of intellectual business labor medical and above all political history Its author also humanizes the middle class by describing the lives of four small business owners Harry Lane Will Daly William U Ren and Lora Little Lane was Portland s reform mayor before becoming one of only six senators to vote against U S entry into World War I Daly was Oregon s most prominent labor leader and a onetime Socialist U Ren was the national architect of the direct democracy movement Little was a leading antivaccinationist The Radical Middle Class further explores the Portland Ku Klux Klan and concludes with a national overview of the American middle class from the Progressive Era to the present With its engaging narrative conceptual richness and daring argumentation it will be welcomed by all who understand that reexamining the middle class can yield not only better scholarship but firmer grounds for democratic hope      **Social Movements and Political Power** Carl

Boggs, 1986 Author note Carl Boggs teaches political science at the University of Southern California      Taking Back the Boulevard Jan Lin, 2019-01-15 The promises and conflicts faced by public figures artists and leaders of Northeast Los Angeles as they enliven and defend their neighborhoods Los Angeles is well known as a sprawling metropolis with endless freeways that can make the city feel isolating and separate its communities Yet in the past decade as Jan Lin argues in Taking Back the Boulevard there has been a noticeable renewal of public life on several of the city s iconic boulevards including Atlantic Crenshaw Lankershim Sunset Western and Wilshire These arteries connect neighborhoods across the city traverse socioeconomic divides and ethnic enclaves and can be understood as the true locational heart of public life in the metropolis Focusing especially on the cultural scene of Northeast Los Angeles Lin shows how these gentrifying communities help satisfy a white middle class consumer demand for authentic experiences of living on the edge and a spirit of cultural rebellion These neighborhoods have gone through several stages from streetcar suburbs to disinvested neighborhoods with the construction of freeways and white flight to immigrant enclaves to the home of Chicano a artists in the 1970s Those artists were then followed by non Chicano a white artists who were later threatened with displacement by gentrifiers attracted by the neighborhoods culture street life and green amenities that earlier inhabitants had worked to create Lin argues that gentrification is not a single transition but a series of changes that disinvest and re invest neighborhoods with financial and cultural capital Drawing on community survey research interviews with community residents and leaders and ethnographic

observation this book argues that the revitalization in Northeast LA by arts leaders and neighborhood activists marks a departure in the political culture from the older civic engagement to more socially progressive coalition work involving preservationists environmentalists citizen protestors and arts organizers Finally Lin explores how accelerated gentrification and mass displacement of Latino a and working class households in the 2010s has sparked new rounds of activism as the community grapples with new class conflicts and racial divides in the struggle to self determine its future The Dark Side of the Left Richard J. Ellis,1998 Political correctness idealizing the oppressed and an affinity for authoritarian and charismatic leaders are all parts of what Ellis calls the dark side of the left *Critical Pluralism, Democratic Performance, and Community Power* Paul Schumaker,1991 Who governs is a central question in political science Typically political scientists address this question by relying upon either empirical analysis which explains existing political practices or normative analysis which describes ideal political practices **Place Matters** Peter Dreier,John H. Mollenkopf,Todd Swanstrom,2004 Analyzes the problematic trends facing America s cities and older suburbs and challenges us to put America s urban crisis back on the national agenda *Sage Public Administration Abstracts* ,1986 Power in the City Marion Orr,Valerie C. Johnson,2008 A collection of thirteen essays considered classics in the field of urban politics from leading scholar Clarence Stone with new essays by the editors and by Stone himself that contextualize the impact of his previous works and suggest new directions for researchers Challenging the Growth Machine Barbara Ferman,1996 Economic development and urban growth are the contested grounds of urban politics Business elites and politicians tend to forge pro growth coalitions centered around downtown development while progressive and neighborhood activists counter with a more balanced approach that features a strong neighborhood component Urban politics is often shaped by this conflict which has intellectual as well as practical dimensions In some cities neighborhood interests have triumphed in others the pro growth agenda has prevailed In this illuminating comparative study Barbara Ferman demonstrates why neighborhood challenges to pro growth politics were much more successful in Pittsburgh than they were in Chicago Operating largely in the civic arena Pittsburgh s neighborhood groups encountered a political culture and institutional structure conducive to empowering neighborhood progressivism in housing and economic development policymaking In contrast the pro growth agenda in Chicago was challenged in the electoral arena which was dominated by machine ward based politicians who regarded any independent neighborhood organizing as a threat Consequently neighborhood demands for policymaking input were usually thwarted Besides revealing why the development policies of two important American cities diverged Ferman s unique comparative approach to this issue significantly expands the scope of urban analysis Among other things it provides the first serious study to incorporate the civic sector neighborhood politics as an important component of urban regimes Ferman also emphasizes institutional and cultural factors often ignored or relegated to residual roles in other studies and expounds on their influence in shaping local politics and policy To add an analytical and normative dimension to urban analysis she

focuses on the non elite actors not just the economic and political elites who compose governing coalitions Ultimately Ferman takes a more holistic and balanced view of large cities than is typical for urban studies as she argues that neighborhoods are an important integral part of what cities are and can be For that reason especially her work will have a profound impact upon our understanding of urban politics *The Politics of Downtown Development* Stephen J. McGovern, 1998-07-23 American cities experienced an extraordinary surge in downtown development during the 1970s and 1980s Pro growth advocates in urban government and the business community believed that the construction of office buildings hotels convention centers and sports complexes would generate jobs and tax revenue while revitalizing stagnant local economies But neighborhood groups soon became disgruntled with the unanticipated costs and unfulfilled promises of rapid expansion and grassroots opposition erupted in cities throughout the United States Through an insightful comparison of effective protest in San Francisco and ineffective protest in Washington D C Stephen McGovern examines how citizens even those lacking financial resources have sought to control their own urban environments McGovern interviews nearly one hundred business activists government officials and business leaders exploring the influence of political culture and individual citizens perceptions of a particular development issue McGovern offers a compelling explanation of why some battles against city hall succeed while so many others fail **Who's who in California**, 1998 **Politics, an American Perspective** Earl Klee, 1995 *Mexican American Politics in a Multi-ethnic Community* Jose Zapata Calderon, 1991 **Los Angeles** Roger Keil, 1998-12-30 This book combines a historical narrative of urbanisation in Los Angeles with an examination of its changing social geography It provides a solid base from which to understand and explore the city further and a defined emphasis on recent developments It focuses on the role of local actors in the globalisation of Los Angeles and traces the ways in which local states boosters labour unions social movements neighbourhood and community organisations and other agents participate in negotiated world city formation **"Democracy is in the Streets"** Jim Miller, 1987 A vivid re creation of the turbulent history of the people and ideas that shaped the Left in America during the 1960s **Money and Politics in the Golden State: Report and recommendations of the California Commission on Campaign Financing** California Commission on Campaign Financing, 1989 *Symposium*, 1995 *The California Handbook* Ted Trzyna, Julie Didion, 1998-10 *Challenging Politics* Donna Vogel, 2003 This history of Vancouver's Coalition of Progressive Electors COPE examines the processes and pitfalls of coalition building at the urban level The role of politics in the era of globalization is a key issue discussed with emphasis on how electoral politics and processes must adhere to democratic values COPE is examined as a microcosm illustrating two central tensions in leftist politics the problem of building coalitions between diverse social organizations and the role of electoral politics in broader leftist projects COPE's involvement in recent urban elections in Vancouver shed light on the success of leftist agendas
