The Middle East in World Affairs George Lenczowski,1980      The Middle East in World Affairs George Lenczowski,1953

The Middle East Institute of World Affairs,University of Southern California,1973-01-01 In many respects this book represents a considerable departure from traditional works on international relations in the Middle East Instead of offering partial explanations based on conventional approaches this book attempts to incorporate studies with different methodological approaches and with the Middle East Foreign affairs specialists offer balanced and linguistically neutral commentaries while marshalling empirical data to support their analyses The result is a broad synthesis which helps the reader see the larger picture despite its complexity The Middle East is considered as a subordinate system of the international political system in Part 1 The chapters in this section focus on the nations of the area and their interactions within the subsystem The papers also examine the implications of these interactions to the nations outside the Middle East In Part 2 the scope of inquiry is enlarged to treat interactions between the major world powers and the nations of the Middle East Papers in Part 3 focus upon American foreign policy in the Middle East This portion examines the roles of various special interest groups such as the oil companies Zionists the United States Congress newspapers and religious bodies as they relate to the formation of American policy for the Middle East In essence The Middle East is an international relations study of the Middle East Additionally it has new material the treatment of religious influences upon the Middle East the attitudes of some major newspapers towards the middle East conflict and the domestic position of Israel regarding the Arab Israeli conflict seldom discussed in other works      **The Middle East in World Affairs ... Second Edition** George Lenczowski,1956      **The Quest for Hegemony in the Arab World** Podeh,2022-02-22 The struggle between Egypt and Iraq over Arab hegemony constitutes the main theme of this study Focussing on the struggle over Middle Eastern defense between 1945 58 and culminating in the conflict over the Baghdad Pact 1955 58 it sheds new light on Arab politics during the period under review This research concentrates predominantly on the regional actors The underlying assumption is that policies were not necessarily formulated in Washington and London and that often enough major decisions taken in Ankara Cairo Baghdad Damascus Amman and other Arab capitals affected decision makers in Western capitals The Quest for Hegemony in the Arab World is based on newly released British American and Israeli documents as well as on all available Arab sources The study s value rests upon its discussion of the Baghdad Pact a significant event which was hitherto neglected yet marked a watershed in modern Arab history This study s approach offers an analytical framework with which the present struggle for hegemony in the Arab world may be examined      *The US Approach to the Islamic World in Post-9/11 Era* Chintamani Mahapatra,2009 This book examines the United States foreign policies toward the Muslim world including actions taken against Islamic countries who attempted to challenge the United States regional dominance and alliances with Pakistan the United Arab Emirates and Saudi Arabia It focuses on how the U S has reconfigured its policy

towards the radical and the conservative group of Muslim countries and how its new mission against terrorism has affected international relations particularly U S Indian relations Islamic revivalism the emergence of a highly political Islamic population the rise of terrorism and other recent socio political changes are also discussed *Heroic Diplomacy* Kenneth W.
