## **Middle English Sermons From Manuscript Roy:**

**Middle English Dictionary** Robert E. Lewis, Mary Jane Williams, 2007 The final installment of the most important modern reference work for Middle English studies

*Macaronic Sermons* Siegfried Wenzel, 1994-09-07 Siegfried Wenzel's groundbreaking study seeks to describe and analyze the linguistically mixed or macaronic sermons in late fourteenth century England Not only are these works of considerable religious interest they provide extensive information on their literary linguistic and cultural milieu *Macaronic Sermons* begins by offering a typology of such works those in which English words offer glosses or offer structural functions or offer neither of the two but yet are syntactically integrated This last group is then examined in detail reasons are given for this usage and for its origins based on the realities of fourteenth century England Siegfried Wenzel draws valuable conclusions about the linguistic status quo of the era together with the extent of education the audiences expectations and the ways in which the authors' minds worked Obviously of interest to scholars and students of early English literature *Macaronic Sermons* also contains much valuable information for specialists in language development or oral theory and for those interested in multicultural societies

*Four Middle English Sermons* Veronica M. O'Mara, 2002 The four Middle English sermons from British Library MS Harley 2268 for the occasions of the Annunciation Passion Sunday the Feast of St Mary Magdalene a Procession and a Dedication of an Altar to St Anne are edited here for the first time They form an integrated group sharing a consistency in content a similarity of style and a uniformity of outlook Although clearly the work of a very scholarly preacher and replete with authorities both biblical and patristic the tone adopted can also be a populist one while the preacher makes use of images and allegories more often found in obviously literary works Prepared at the peak of the Lollard threat and at the height of the turmoil of the Schism the sermons provide an important example of outspoken and political preaching Moreover there is probably a wider range of implicit and explicit contextual information for the Harley 2268 texts than for any other similar set of sermons This evidence gives strong support to the argument that the sermons were associated with the Benedictine Abbey of St Mary in York specifically the abbot Thomas Spofford and were designed for different venues in York in the early decades of the fifteenth century

Wasserman, 1991 *Text and Matter* offers fourteen original never before published essays on all four Pearl poet poems A fifteenth essay summarizes an earlier book length study Each essay has something to teach us and each essay adds to the critical momentum of *Text and Matter* making it a valuable scholarly resource

Caie,Denis Renevey,2008-04-01 This collection of essays by leading experts in manuscript studies sheds new light on ways to approach medieval texts in their manuscript context Each contribution provides groundbreaking insight into the field of medieval textual culture demonstrating the various interconnections between medieval material and literary traditions The contributors work aids reconstruction of the period s writing practices as contextual factors surrounding the texts provide clues to the manuscript experience Topics such as scribal practice and textual providence glosses rubrics page lay out and even page ruling are addressed in a manner illustrative and suggestive of textual practice of the time while the volume further considers the interface between the manuscript and early textual communities Looking at medieval inventories of books no longer extant and addressing questions such as ownership reading practices and textual production *Medieval Texts in Context* addresses the fundamental interpretative issue of how scribe editors worked with an eye to their intended audience An understanding of the world inhabited by the scribal community is made use of to illuminate the rationale behind the manufacture of devotional texts The combination of approaches to the medieval vernacular manuscript presented in this volume is unique marking a major innovative contribution to manuscript studies      *MLA International Bibliography of Books and Articles on the Modern Languages and Literatures* ,2008
