The Real Middle Earth Brian Bates, 2015-02-10 J R R Tolkien claimed that he based the land of Middle Earth on a real place The Real Middle Earth brings alive for the first time the very real civilization in which those who lived had a vision of life animated by beings beyond the material world Magic was real to these people and they believed their universe was held together by an interlaced web of golden threads visible only to wizards At its center was Middle Earth a place peopled by humans but imbued with spiritual power It was a real realm that stretched from Old England to Scandinavia and across to western Europe encompassing Celts Anglo Saxons and Vikings Looking first at the rich and varied tribes who made up the populace of this mystical land Bates looks at how the people lived their daily lives in a world of magic and mystery Using archaeological historical and psychological research Brian Bates breathes life into this civilization of two thousand years ago in a book that every Tolkien fan will want
