**Midlothian Speeches, 1879** William Ewart Gladstone, 1971      **Midlothian Speeches 1879. Reprinted with an Introduction by M.R.D. Foot** William Ewart Gladstone, M. R. D. Foot, 1971      *Midlothian Speeches, 1879 [by] W.E. Stumping or making political speeches in favor of a candidate cause or campaign has been around since before the 1800s when speechmaking was frequently portrayed as delivered from the base of a tree. The practice which has been strongly associated with the American frontier British agitators and colonial Australia remains an effective component of contemporary democratic politics. In his engaging book *On the Stump* Sean Scalmer provides the first comprehensive transnational history of the stump speech. He traces the development and transformation of campaign oratory as well as how national elections and public life and culture have been shaped by debate over the past century. Scalmer presents an eloquent study of how stumping careers were made, sustained, remembered and exploited to capture the complex rhythms of political change over the years. *On the Stump* examines the distinctive dramatic and performative styles of celebrity orators including Davy Crockett, Henry Clay and William Gladstone. Ultimately Scalmer recovers the history of the stump speech and its historical significance in order to better understand how political change is forged.

**Speeches Delivered in Midlothian During the Last Week of November, 1879** W. E. Gladstone, 1879      *Public Speech and the Culture of Public Life in the Age of Gladstone* Joseph S. Meisel, 2001-12-06

By the last decades of the nineteenth century more people were making more speeches to greater numbers in a wider variety of venues than at any previous time. This book argues that a recognizably modern public life was created in Victorian Britain largely through the instrumentality of public speech. Shedding new light on the careers of many of the most important figures of the Victorian era and beyond including Gladstone, Disraeli, Sir Robert Peel, John Bright, Joseph Chamberlain, Winston Churchill, Lloyd George, Charles Haddon Spurgeon and Canon Liddon, the book traces the ways in which oratory came to occupy a central position in the conception and practice of Victorian public life. Not a study of rhetoric or a celebration of great oratory, the book stresses the social developments that led to the production and consumption of these speeches.

William Ewart Gladstone 1809-98 was the outstanding statesman of the Victorian age He was an MP for over sixty years a long serving and exceptional Chancellor of the Exchequer and four times Prime Minister As the leader of the Liberal party over three decades he personified the values and policies of later Victorian Liberalism Gladstone however was always more than just a politician He was also a considerable scholar a dedicated Churchman and had a range of interests and connections that made him in many respects the quintessential Victorian Yet important aspects of Gladstone's life have received relatively little recent attention from historians This study reappraises Gladstone by focusing on five themes his reputation his representation in visual and material culture his personal life his role as an official and the ethical and political basis of his international policies This collection of original often multidisciplinary studies provides new perspectives on Gladstone's public and private life As such it illustrates the many sided nature of his career and the complexities of his personality
