Louis D. Brandeis Melvin I. Urofsky, 2012-09-04 As a young lawyer in the late nineteenth and early twentieth centuries Louis Brandeis born into a family of reformers who came to the United States to escape European anti-Semitism established the way modern law is practiced. He was an early champion of the right to privacy and pioneer the idea of pro bono work by attorneys. Brandeis invented savings bank life insurance in Massachusetts and was a driving force in the development of the Clayton Antitrust Act, the Federal Reserve Act and the law establishing the Federal Trade Commission. Brandeis witnessed and suffered from the anti-Semitism rampant in the United States in the early twentieth century and with the outbreak of World War I became at age fifty eight the head of the American Zionist movement. During the brutal six month congressional confirmation battle that ensued when Woodrow Wilson nominated him to the Supreme Court in 1916 Brandeis was described as a disturbing element in any gentlemen's club. But once on the Court he became one of its most influential members developing the modern jurisprudence of free speech and the doctrine of a constitutionally protected right to privacy and suggesting what became known as the doctrine of incorporation by which the Bill of Rights came to apply to the states. In this award winning biography Melvin Urofsky gives us a panoramic view of Brandeis's unprecedented impact on American society and law.
