John Wyndham

Midwich Cuckoos The:

The Midwich Cuckoos John Wyndham, 1982 **The Midwich Cuckoos** John Wyndham, 2022-04-19 A genre defining tale of first contact by one of the twentieth century's most brilliant and neglected science fiction and horror writers whom Stephen King called the best writer of science fiction that England has ever produced In my opinion John Wyndham's chef d'oeuvre a graphic metaphor for the fear of unwanted pregnancies I myself had a dream about a highly intelligent nonhuman baby after reading this book Margaret Atwood Slate COMING SOON TO AMC AS THE MIDWICH CUCKOOS VILLAGE OF THE DAMNED What if the women of a sleepy English village all became simultaneously pregnant and the children once born possessed supernatural and possibly alien powers A mysterious silver object appears in quiet picture perfect Midwich A day later the object is gone and all the women in the village they will come to learn are now pregnant The resultant children of Midwich are shockingly frighteningly other Faced with these unfathomable and potentially unstoppable children the question arises What will humanity do when faced with the threat of the unknown *The Midwich Cuckoos by John Wyndham* (pseud.) John Beynon Harris, 1961 *The Midwich Cuckoos* John Wyndham, 1975 **Midwich Cuckoos** John Wyndham, 1999-11-01 **The Midwich Cuckoos** John Wyndham, 2005 Classic science fiction Midwich is a quiet English village After a strange night all the women find themselves pregnant 10 yrs **The Midwich Cuckoos** John Wyndham, 2000 In the village of Midwich all the women of child bearing age become pregnant overnight When a violent incident occurs the moral fabric of the village disintegrates and a battle for survival begins **The Midwich Cuckoos** John Wyndham, 1971 *The Midwich cuckoos. The mini-series* , *The Midwich Cuckoos* John Wyndham, 1961 *The Midwich Cuckoos - Abridged* John Wyndham, 1964 **The Day of the Triffids** John Wyndham, Folio Society (London, England), 2010 **The Midwich Cuckoos** , 2004 Classic science fiction Midwich is a quiet English village After a strange night all the women find themselves pregnant 10 yrs *The Midwich Cuckoos* John Benyon Harris, 1969 *The Otherworlds of Liz Jensen* Helen Esther Mundler, 2016 The first study of one of the most innovative of contemporary novelists Liz Jensen and of the otherworlds in her fiction Liz Jensen a British author of eight novels is among today's most innovative writers Her literary thrillers occupy the terrain between realism and science fiction This first study of Jensen centers on the very diverse otherworlds she creates in each of her novels which can consist of an indeterminate space of ontological instability a zone in which real and unreal converge to destabilize the realist text as in *Egg Dancing* 1995 and *The Ninth Life of Louis Drax* 2004 In other novels the otherworld relies on defamiliarization thus in *War Crimes for the Home* 2002 the experience of war is transformed by being seen from a woman's perspective In still other cases the otherworld spans the novel's entire topos as in *The Paper Eater* 2000 the full blown utopia at the center of Jensen's oeuvre Jensen's work approaches contemporary social issues such as religious fundamentalism ecological disaster and assisted procreation Simultaneously it displays a number of characteristics of erudite fiction including self reflexivity inter and intratextual reference parody pastiche and burlesque

Notwithstanding the popular elements of Jensen's work Helen E Mundler's study adopts a rigorously academic approach to it referencing canonical works but also more innovative texts particularly by contemporary women writers as points of comparison Helen E Mundler is Senior Lecturer in English Studies at UPEC Universit Paris Est Crteil with a research affiliation at the Universit Paris X Nanterre La Dfense

Dangerous Visions and New Worlds Andrew Nette, Iain McIntyre, 2021-10-26 Much has been written about the long Sixties the era of the late 1950s through the early 1970s It was a period of major social change most graphically illustrated by the emergence of liberatory and resistance movements focused on inequalities of class race gender sexuality and beyond whose challenge represented a major shock to the political and social status quo With its focus on speculation alternate worlds and the future science fiction became an ideal vessel for this upsurge of radical protest **Dangerous Visions and New Worlds** Radical Science Fiction 1950 to 1985 details celebrates and evaluates how science fiction novels and authors depicted interacted with and were inspired by these cultural and political movements in America and Great Britain It starts with progressive authors who rose to prominence in the conservative 1950s challenging the so called Golden Age of science fiction and its linear narratives of technological breakthroughs and space conquering male heroes The book then moves through the 1960s when writers including those in what has been termed the New Wave shattered existing writing conventions and incorporated contemporary themes such as modern mass media culture corporate control growing state surveillance the Vietnam War and rising currents of counterculture ecological awareness feminism sexual liberation and Black Power The 1970s when the genre reflected the end of various dreams of the long Sixties and the faltering of the postwar boom is also explored along with the first half of the 1980s which gave rise to new subgenres such as cyberpunk **Dangerous Visions and New Worlds** contains over twenty chapters written by contemporary authors and critics and hundreds of full color cover images including thirteen thematically organised cover selections New perspectives on key novels and authors such as Octavia Butler Ursula K Le Guin Philip K Dick John Wyndham Samuel Delany J G Ballard John Brunner Judith Merril Barry Malzberg Joanna Russ and many others are presented alongside excavations of topics works and writers who have been largely forgotten or undeservedly ignored

The Great British Dream Factory Dominic Sandbrook, 2015-10-01 SPECTATOR BOOKS OF THE YEAR 2015 Britain's empire has gone Our manufacturing base is a shadow of its former self the Royal Navy has been reduced to a skeleton In military diplomatic and economic terms we no longer matter as we once did And yet there is still one area in which we can legitimately claim superpower status our popular culture It is extraordinary to think that one British writer J K Rowling has sold more than 400 million books that Doctor Who is watched in almost every developed country in the world that James Bond has been the central character in the longest running film series in history that The Lord of the Rings is the second best selling novel ever written behind only A Tale of Two Cities that the Beatles are still the best selling musical group of all time and that only Shakespeare and the Bible have sold more books than Agatha Christie To put it simply no country on earth relative to its size

has contributed more to the modern imagination This is a book about the success and the meaning of Britain's modern popular culture from Bond and the Beatles to heavy metal and Coronation Street from the Angry Young Men to Harry Potter from Damien Hirst to The X Factor

The End of the World Maria Manuel Lisboa, 2011 Our fear of the world ending like our fear of the dark is ancient deep seated and perennial It crosses boundaries of space and time recurs in all human communities and finds expression in every aspect of cultural production from pre historic cave paintings to high tech computer games This volume examines historical and imaginary scenarios of apocalypse the depiction of its likely triggers and imagined landscapes in the aftermath of global destruction Its discussion moves effortlessly from classic novels including Aldous Huxley's Brave New World George Orwell's Nineteen Eighty Four and Margaret Atwood's Oryx and Crake to blockbuster films such as Blade Runner Armageddon and Invasion of the Body Snatchers Lisboa also takes into account religious doctrine scientific research and the visual arts to create a penetrating multi disciplinary study that provides profound insight into one of Western culture's most fascinating and enduring preoccupations

Crossing the Event Horizon Jonathan Zap, 2012-02-24 Crossing the Event Horizon provides evidence that we are both individually and collectively hurtling toward an evolutionary event horizon Using the tools of Jungian psychology the nature of the singularity is defined by its myriad manifestations emerging from the collective unconscious These include dreams motifs and themes found in art science fiction and fantasy literature and films religious cults and the paranormal especially near death experiences and UFO encounters Key aspects of the Singularity Archetype include Logos Beheld visually comprehended linguistic intent often associated with a collective telepathic network Homo gestalt a new species where individuality is conserved but also telepathically networked and a parallelism between the individual event horizon of death and eschaton the collective event horizon of the species Apocalypticism is analyzed as an example of the Singularity Archetype pathologizing A study of the Heaven's Gate saucer suicide cult illustrates what can happen when people become possessed by the Singularity Archetype and are driven by it into delusory projections The Singularity Archetype is viewed apocalyptically by the ego and as a transcendent evolutionary event by the Self and the duality of these views is explored in many examples The evolutionary origins of the ego and its metamorphosis as it approaches the event horizon are explored Evolutionary theory which relates to the Singularity Archetype through a number of dynamic paradoxes is discussed Many popular books and movies are analyzed as permutations of the Singularity Archetype including Avatar Childhood's End Village of the Damned Powder and 2001 A Space Odyssey The Singularity Archetype is a primordial image of human evolutionary metamorphosis which emerges from the collective unconscious How the Archetype Manifests a Composite Picture A rupture of plane event occurs usually threatening the survival of the individual and or species The event is a shock that disrupts the equilibrium of body physical world and also individual collective psyche It is an ontological shock that will be viewed as the worst thing possible by individual collective ego There is another rupture of plane that may actually be the

same rupture as above but seen from a cosmic rather than a personal view The shock is revealed to be a transcendent evolutionary event The revelation of the transcendent aspect will often involve spiral motifs and unusual lights Consciousness and communication metamorphose and with them core aspects ego individuality connection to linear time corporeality gender identification social order etc fundamentally transform There is a vision or actualization of release from some or all limits of corporeal incarnation and the emergence of glorified bodies which have enhanced powers and various degrees of etherialization More visual and telepathic modes of consciousness and communication emerge and this is part of a transformation of individuality into Homo gestalt a new species where individual psyches are networked telepathically The Singularity Archetype may be experienced and even actualized to various degrees by an individual through transcendent and or anomalous experiences such as near death experiences NDEs UFO abduction close encounter experiences kundalini and psychotropic episodes As with encounters with all archetypes individuals and groups attach idiosyncratic material to it such as particular end dates and scenarios Another way of defining the Singularity Archetype in its collective form is as a resonance flowing backward through time of an approaching Singularity at the end of human history The Singularity Archetype relates to both the evolutionary event horizon of the species and for the individual the event horizon of death
