The Midwife's Pocket Formulary Claire Banister, 2004 Claire Banister presents an easy to use reference guide to the most common pharmaceutical preparations used in maternity units The book is

intended to complement the British National Formulary and other main textbooks Humanising Birth Elizabeth Newnham, Lois McKellar, Kaveri Mayra, Yvonne Kuipers, 2025-11-06 This book develops on how with the birth of every baby comes the possibility of love connection and optimal health and well being It shows how the salutogenic pathways that are set up at the start of life are not only for the short term but throughout life and into the next generation The start of life is now a well known point of health intervention as can be seen by many government health policies on the first 1000 days from conception to age two There is evidence to show that what occurs during birth and the early postnatal period affects the long term health of the child Birth is a significant moment in time not only for the child but also for the mother There are increasing rates of mental health issues in this population with maternal suicide being a leading cause of mortality in many high income countries and postnatal depression increasing in women birthing people and partners fathers which has a significant impact on the developing family This is occurring within the backdrop of an environment of increasing reports of disrespect and abuse during childbirth and the dual issues of inadequate access to maternity care and over medicalisation Scaling up midwifery is seen as a vital part of the solution to current maternity crises but there are potential barriers to midwives providing humanised care within current birth settings including witnessing or being complicit in dehumanising practices feeling unsupported or managing unsafe staffing levels Humanising birth can be seen as a resistance to dehumanising disrespectful over medicalised and industrialised birth practices which is grounded in the language of human rights and ethics In this book we provide a solution focused approach to current complexities through the idea of humanised birth first providing a definition and domains then exploring the idea from an institutional level through the level of relationships to the level of the individual Support for the growth of secure bonds of love health and wellbeing for thriving rather than just surviving is critical not only to a healthy happy productive life but also to cohesive compassionate creative and productive communities *The Medical circular [afterw.] The London medical press & circular [afterw.] The Medical press & circular* ,1873 *The Pharmaceutical Journal and Pharmacist* ,1909 **Pharmaceutical Journal** ,1900 The Pharmaceutical Journal and Transactions ,1884 **International Health Year-book** Health Organisation,1929 **The Lancet** ,1889 **League of Nations Publications** ,1929 *The Extra Pharmacopoeia of Martindale and Westcott* ,1928 Health Organisation. Sargent,2012-12-06 This book examines the factors influencing women s choices of obstetrical care in a Bariba community in the People s Republic of Benin West Africa When selecting a research topic I decided to investigate health care among the Bariba for several reasons First I had served as a Peace Corps Volunteer in northern Benin then Dahomey and had established a network of contacts in the region In addition I had worked for a year as assistant manager of a pharmacy in a northern town and had become interested in the pattern of utilization of health care services by urban residents This three year residence proved an invaluable asset in preparing and conducting research in the northern region In particular I was able to establish relationships with several indigenous midwives whose families I already knew both from prior research experience and mutual friend ships These relationships enabled me to obtain detailed information regarding obstetrical practice and thus form the foundation of this book The fieldwork upon which the book is directly based was conducted between June 1976 and December 1977 and sponsored by the F ord Rockefeller Popula tion Policy Program the Social Science Research Council the National Science Foundation and the FULbright Hays Doctoral Dissertation Research Program The Ford Rockefeller Population Policy Program funded the project as a collab oration between myself and Professor Eusebe Alihonou Professor Agrege Gynecologie Obstetrique at the National University of Benin *Minutes of the General Medical Council, and of Its Various Committees and Branch Councils* General Medical Council (Great Britain),1903 **The Pharmaceutical Journal** ,1895
