Farnsworth House: Ludwig Mies Van Der Rohe Maritz Vandenberg, 2003-06-01 The only residence built by Ludwig Mies van der Rohe in America Farnsworthhouse exemplifies both the central tenet of the International Style by inverting the conventions of traditional architecture and of Mies' own design philosophy as it had evolved over the preceding four decades commissioned by Dr Edith Farnsworth to be used as a weekend country retreat the house was conceived by Mies as an envelope of glass and steel floating over the Illinois Fox River flood plain Its spare interior an integrated living space pared down to the last detail was intended to enable a simpler leaner and healthier lifestyle With detailed drawings and

specially commissioned photography this addition to the award winning Architecture in detail series provides an in depth and richly illustrated account of this icon of 20th century Modernist architecture It documents how even before its completion in 1951 architect and client had fallen out over expenses and practical defects of the house By the time it was sold to Lord Palumbo in 1972 Edith Farnsworth had changed many of the interior elements dictated so **Mies Van Der Rohe** ,1976
