**Mighty Rough Times** Andrea Sutcliffe,2000 First person narratives of former Tennessee slaves edited from WPA slave narratives    **Mighty Rough Times, I Tell You** Andrea Sutcliffe,2000 In 1929 the Social Sciences Department at Fisk University in Nashville Tennessee began recording the oral histories of former slaves During the mid 1930s the Federal Writers Project undertook a similar effort ultimately compiling more than two thousand interviews and ten thousand pages of material in seventeen states In this volume thirty six former slaves living in Tennessee recount what it was like to live under the yoke Tennessee was not a large slaveholding state compared with others in the South On the other hand it was a leader in the abolition movement prior to 1830 and a powder keg of mixed Union and Confederate sympathies at the time of the Civil War The voices in this volume thus recall the extreme conditions of slavery in the border country Originally from San Antonio Andrea Sutcliffe has a journalism degree from the University of Texas at Austin She was a writer editor and publications manager in the Washington DC area for twenty years Her writing and editing career began in 1990 as director of the EEI Press in Alexandria Virginia In 1996 Andrea Sutcliffe moved to Virginia's Shenandoah Valley to devote herself full time to writing Andrea's love of her new home in the mountains of western Virginia and a desire to learn more about the region's fascinating history led to her book *Touring the Shenandoah Valley Backroads*    **Freedom Music** Jen Wilson,2019-04-01 The stories within its pages will attract not only social and political historians but feminists jazz fans academics interested in African American cultural interchange and general readers fascinated by the cast of characters who played and danced to the music despite warnings from the pulpit that degenerate youth were destined for hell and damnation Freedom Music will enable readers to learn of an innovative side of Wales previously hidden from history The music appealed to Wales vibrant youth and those not part of the mainstream culture of chapels choirs and male voice choirs This study highlights gender misogyny and discrimination within jazz music in Wales This studies focuses on the history of African American music in Wales Welsh women's contribution to jazz in Wales Cultural innovation by women entrepreneurs during and from the First World War    **The Fall of the House of Dixie** Bruce C. Levine,2013 A revisionist history of the radical transformation of the American South during the Civil War examines the economic social and political deconstruction and rebuilding of Southern institutions as experienced by everyday people By the award winning author of *Confederate Emancipation*    *The Home Voices Speak Louder Than the Drums* Wanda Easter Burch,2017-06-05 Soldier mortals would not survive if they were not blessed with the gift of imagination and the pictures of hope wrote Confederate Private Henry Graves in the trenches outside Petersburg Virginia The second angel of mercy is the night dream Providing fresh perspective on the human side of the Civil War this book explores the dreams and imaginings of those who fought it as recorded in their letters journals and memoirs Sometimes published as poems or songs or printed in newspapers these rarely acknowledged writings reflect the personalities and experiences of their authors Some expressions of fear pain loss homesickness and

disappointment are related with grim fatalism some with glimpses of humor  
**Lethal Punishment** Margaret Vandiver,2005-12-22 Why did some offenses in the South end in mob lynchings while similar crimes led to legal executions Why did still other cases have nonlethal outcomes In this well researched and timely book Margaret Vandiver explores the complex relationship between these two forms of lethal punishment challenging the assumption that executions consistently grew out of and replaced lynchings Vandiver begins by examining the incidence of these practices in three culturally and geographically distinct southern regions In rural northwest Tennessee lynchings outnumbered legal executions by eleven to one and many African Americans were lynched for racial caste offenses rather than for actual crimes In contrast in Shelby County which included the growing city of Memphis more men were legally executed than lynched Marion County Florida demonstrated a firmly entrenched tradition of lynching for sexual assault that ended in the early 1930s with three legal death sentences in quick succession With a critical eye to issues of location circumstance history and race Vandiver considers the ways that legal and extralegal processes imitated influenced and differed from each other A series of case studies demonstrates a parallel between mock trials that were held by lynch mobs and legal trials that were rushed through the courts and followed by quick executions Tying her research to contemporary debates over the death penalty Vandiver argues that modern death sentences like lynchings of the past continue to be influenced by factors of race and place and sentencing is comparably erratic
