*The External Dimension of the EU's Migration Policy* Katharina Eisele, 2014-05-08 In recent years the EU has been active in developing a common European immigration policy in cooperation with third countries and in building an external dimension of such an EU policy The linkages between the EU's external relations and migration policies have influenced the distinct legal positions of third country nationals non EU nationals This book critically discusses whether the EU's objective of creating a common EU migration policy can be achieved against the backdrop of a highly fragmented EU framework for migration law and policy and it argues that it is difficult to speak of one single unitary group of third country nationals forming the counterpart to EU citizens

Freeman, Nikola Mirilovic, 2016-02-27 In this comprehensive Handbook an interdisciplinary team of distinguished scholars from the social sciences explores the connections between migration and social policy They test conflicting claims as to the positive and negative effects of different types of migration against the experience of countries in Europe North America Australasia the Middle East and South Asia assessing arguments as to migration s impact on the financial social and political stability and

**Mechanisms of Immigration Control** Grete Brochmann,Tomas Hammar,2020-06-03 Perhaps the most vexing question facing Europe today is what to do about asylum seekers and people in search of work who arrive daily some escaping nations where poverty and persecution are for them facts of life Given its costs both human and economic immigration policy has understandably become a highly politicized issue With the abolition of internal borders within the EU new controls are needed to stop immigration and to prevent non citizens from working illegally New external policies are being used such as early warning systems and visa controls with the long term aim of reducing emigration from poor and war ridden nations Europe has also intensified its control of internal aliens But there are limits to how tight a control can be made without violating the norms and values of the democratic state where human rights should be valid for citizens and non citizens alike However free immigration is not in the interests of the European states It might undermine labour and housing markets make planning impossible and alter the preconditions for welfare states This timely book addresses the politics and mechanisms of immigration control in Europe in an effort to unravel its complexities and propose sensible solutions It covers recent events including racist and populist party politics as well as changes in the international setting such as the development within the European Union and Schengen and the recent refugee crisis in the former Yugoslavia It will be

Migration Research Unit,1998 Recoge 1 Feasibility study 2 Recent literature review on European migration 3 Research by existing institutions inventory of data collection and analysis 4 Analysis of information sources and requirements 5 Migration information provision 6 Existing observatories 7 The role for information technology in a European migration observatory 8 European migration observatory recommendation and proposal      *Gender and Migration* Anastasia Christou,Eleonore Kofman,2022-03-07 This open access short reader offers a critical review of the debates on the transformation of migration and gendered mobilities primarily in Europe though also engaging in wider theoretical insights Building on empirical case studies and grounded in an analytical framework that incorporates both men and women masculinities sexualities and wider intersectional insights this reader provides an accessible overview of conceptual developments and methodological shifts and their implications for a gendered understanding of migration in the past 30 years It explores different and emerging approaches in major areas such as gendered labour markets across diverse sectors beyond domestic and care work to include skilled sectors of social reproduction the significance of families in migration and transnational families displacement asylum and refugees and the incorporation of gender and sexuality in asylum determination academic critiques and gendered discourses concerningintegration often with the focus on Muslim women The reader concludes with considerations of the
