Migration, Culture Conflict, Crime and Terrorism Rob T. Guerette, 2016-04-29 Immigration and its consequences is a substantially contested subject with hugely differing viewpoints While some contend that criminal participation by migrants is the result of environmental factors found in the host country that are beyond the control of migrants others blame migrants for all that is wrong in their communities In this book experts from Europe the USA Turkey and Israel examine recent developments in the fields of culture conflict organized crime victimization and terrorism all of which intersect to varying degrees with migration and illegal conduct While the essays further our understanding of a variety of issues surrounding migration at the same time they illuminate the complexities of managing the challenges as globalization increases

*Migration, Culture Conflict and Crime* Joshua D. Freilich, Moshe Addad, 2017-10-05 This title was first published in 2002 The issue of immigration and crime in all of its many contexts and forms is a problem which affects numerous countries throughout the world In many countries immigrants have been accused of disproportionate involvement in crime while in others immigrants are often claimed to be the victims of criminal offenders as well as indifferent criminal justice systems The subjects covered within this informative collection include the offending and victimization rates of immigrants and their dependants institutional racism human trafficking smuggling and ethnic conflicts In particular the problems faced by female immigrants are addressed in detail Whilst some papers look at the issues facing particular countries such as Germany the United Kingdom Australia Israel and Turkey others adopt a more comparative approach Migration Culture Conflict and Crime is an essential and compelling read for all those with a strong interest in this important area Not only does it significantly advance our scientific knowledge concerning the relationship between immigration crime and justice but it also sets forth a number of proposals which if implemented could address many of the problems found in these areas

**Migration, Culture Conflict, Crime, and Terrorism** Joshua D. Freilich, Rob T. Guerette, 2006      **Comparative Criminal Justice and Globalization** David Nelken, 2016-05-23 In this exciting and topical collection leading scholars discuss the implications of globalisation for the fields of comparative criminology and criminal justice How far does it still make sense to distinguish nation states for example in comparing prison rates Is globalisation best treated as an inevitable trend or as an interactive process How can globalisation's effects on space and borders be conceptualised How does it help to create norms and exceptions The editor David Nelken is a Distinguished Scholar of the American Sociological Association a recipient of the Sellin Glueck award of the American Society of Criminology and an Academician of the Academy of Social Sciences UK He teaches a course on Comparative Criminal Justice as Visiting Professor in Criminology at Oxford University's Centre of Criminology

Decisions to Imprison Rasmus H. Wandall, 2016-05-13 Rasmus Wandall uses quantitative and qualitative methods from studies carried out in Denmark to address the formal and informal norms and ideologies that are used to generate decisions to imprison Focusing on the operations of the courtroom participants his work investigates how

court decision making is organized to allow the sentencing procedure to be open to more than its formal legal framework while at the same time keeping the sentencing within the boundaries of law and legal validity The author uses the theory of law s operational closure developed by Niklas Luhmann The theory provides an advantageous point of departure to capture the close and subtle interactions between law s need for validity and for contextual openness in every legal operation including court decision making      *The Hidden Order of Corruption* Donatella della Porta,Alberto Vannucci,2016-03-23

Children of almost any age can break the law but at what age should children first face the possibility of criminal responsibility for their alleged crimes This work is the first global analysis of national minimum ages of criminal responsibility MACRs the international legal obligations that surround them and the principal considerations for establishing and implementing respective age limits Taking an international children s rights approach with a rich theoretical framework and the vitality of the UN Convention on the Rights of the Child this work maintains a critical perspective such as in challenging the assumptions of many children s rights scholars and advocates Compiling the age limits and statutory sources for all countries this book explains the broad historical origins behind most of them identifying the recurring practical challenges that affect every country and providing the first comprehensive evidence that a general principle of international law requires all nations regardless of their treaty ratifications to establish respective minimum age limits      Pervasive Prevention Tamar Pitch,2016-04-22

The Prevention Society is a definition that can otherwise be summarized as the information society the risk society the surveillance society or the insecure society This book shows the connections and differences between these explanations whilst providing a gender reading of the ways in which social control manifests itself through precautionary measures Today s diffuse and pervasive prevention imperative symbolizes both a self defining doctrine and the justification for a means of repression segregation and exclusion From bodies to daily life and preventative war Pervasive Prevention investigates the effects of this imperative for social control its connection with neo liberal hegemonic ideology and the centrality in its dealings with women and the feminine      **Collected Studies in Criminological**
