M.K. Čiurlionis Vytautas Landsbergis, Mikalojus Konstantinas Čiurlionis, 1992 **Exploring the Invisible** Lynn Gamwell, 2002 This sumptuous and stunningly illustrated book shows through words and images how directly profoundly and indisputably modern science has transformed modern art. Beginning in the mid nineteenth century a strange and exciting new world came into focus: a world of microorganisms in myriad shapes and colors; prehistoric fossils; bizarre undersea creatures; spectrums of light and sound; molecules of water and atomic particles. *Exploring the Invisible* reveals that the world beyond the naked eye made visible by advances in science has been a major inspiration for artists ever since, influencing the subjects they choose as well as their techniques and modes of representation. Lynn Gamwell traces the evolution of abstract art through several waves beginning with Romanticism. She shows how new windows into telescopic and microscopic realms combined with the growing explanatory importance of mathematics and new definitions of beauty derived from science broadly and profoundly influenced Western art. Art increasingly reflected our more complex understanding of reality through increasing abstraction. For example, a German physiologist's famous demonstration that color is not in the world but in the mind influenced Monet's revolutionary painting with light. As the first wave of enthusiasm for science crested, abstract art emerged in Brussels and Munich. By 1914 it could be found from Moscow to Paris. Throughout the book are beautiful images from both science and art, some well known, others rare, that reveal the scientific sources mined by Impressionist and Symbolist painters, Art Nouveau sculptors and architects, Cubists, and other nineteenth and twentieth century artists. With a foreword by astronomer Neil deGrasse Tyson, *Exploring the Invisible* appears in an age when both artists and scientists are exploring the deepest meanings of life, consciousness, and the universe. **Artbibliographies Modern**, 1988 Abstracts of journal articles, books, essays, exhibition catalogs, dissertations, and exhibition reviews. The scope of *ARTbibliographies Modern* extends from artists and movements beginning with Impressionism in the late 19th century up to the most recent works and trends in the late 20th century. Photography is covered from its invention in 1839 to the present. A particular emphasis is placed upon adding new and lesser known artists and on the coverage of foreign language literature. Approximately 13 000 new entries are added each year. Published with title LOMA from 1969-1971 **The Immigration History Newsletter**

,1985 **Marianne Werefkin and the Women Artists in Her Circle** ,2016-11-21 Marianne Werefkin and the Women Artists in Her Circle traces the relationships between the modernist artists in Werefkin's circle including Erma Bossi Elisabeth Epstein Natalia Goncharova Elizaveta Kruglikova Else Lasker Schler Marta Liepi a Skulme Elena Luksch Makowsky and Maria Marc The book demonstrates that their interactions were dominated not primarily by national ties but rather by their artistic ideas intellectual convictions and gender roles it offers an analysis of the various artistic scenes the places of exchange and the artists sources of inspiration Specifically focusing on issues of cosmopolitan culture transcultural dialogue gender roles and the building of new artistic networks the collection of essays re evaluates the contributions of these artists to the development of modern art Contributors Shulamith Behr Marina Dmitrieva Simone Ewald Bernd F.
