**Parallel Systems** Jonathan Bendor,2022-05-27 This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1985 **The Limits of Safety** Scott Douglas Sagan,2020-05-05 Environmental tragedies such as Chernobyl and the Exxon Valdez remind us that catastrophic accidents are always possible in a world full of hazardous technologies Yet the apparently excellent safety record with nuclear weapons has led scholars, policy makers and the public alike to believe that nuclear arsenals can serve as a secure deterrent for the foreseeable future In this provocative book Scott Sagan challenges such optimism Sagan's research into formerly classified archives penetrates the veil of safety that has surrounded U.S. nuclear weapons and reveals a hidden history of frightening close calls to disaster **The Future of Governing** B. Guy Peters,2001 Examines and compares various forms of government in industrialized countries **Rethinking Local Democracy** Desmond S. King, Gerry Stoker,1996-07-10 The transformation of British local government into a new and complex system of local governance raises fundamental theoretical questions as well as empirical ones Rethinking Local Democracy argues that traditional defences of local government are no longer adequate and that the case for local autonomy and local democracy needs to be radically rethought It brings together a set of specially commissioned chapters by leading academics designed to stimulate and contribute to debate on these issues **COVID-19 and Public Policy** Manas Chatterji, Rabindra Chandra Bhattacharya, Shambu Prasad Chakrabarty,2025-01-13 Shining light on the issues emphasized during the COVID 19 pandemic from the European Union energy and the environment dietary factors and sleep crime leadership online dispute resolution to risk perception biopower and trust COVID 19 and Public Policy comprehensively covers age, gender, geographical locations and more **Toward Better Governance in China** Baogang Guo, Dennis V. Hickey,2009-11-12 Toward Better Governance in China takes a fresh look at the latest efforts made by Chinese leaders to promote governance based reform It asserts that the improvement of governance has now become one of the breakthrough points of the much anticipated political reform Although the Chinese government continues to play down expectations about political reform many small scale reform experiments have been quietly undertaken by Chinese leaders at various levels in recent years including the new round of administrative reform centered on the creation of super ministries the enlargement of inner party democracy within the Chinese Communist Party CCP the strengthening of local legislative bodies and judicial reform designed to promote judicial independence and rule of law This strategy calls for strengthening governing capacity and changing government functions One of the advantages in placing the improvement of governance first is that it is less risky than embarking upon a full scaled electoral reform Electoral democracy is undoubtedly an important element in a functional

democracy But equally important is the effectiveness transparency accountability and openness of the governing process Better governance implies greater transparency open deliberation and participation and less adversarial political confrontation and conflict If constructed properly China may become the sort of democratic administration or administrative democracy that Robert Dahl discussed in 1947 Clearly political reform of this kind does not follow the conventional wisdom of a democratic transition which places heavy emphasis on electoral reform or the precedence of the electoral reform to the government reform This book is intended to shed some new light on the ongoing debate about the direction of China's political development *Strategies for Managing Intergovernmental Policies and Networks* Robert W.
