Williams,1998 Francisco G mez de Sandoval Duke of Lerma 1553 1625 is the last major unknown statesman in modern European history Patrick Williams brings him dramatically to life and challenges the assumptions that historians have made about him and about Spanish history at a time of profound crisis inviting a re evaluation of the phenomenon of government by favourites in this seminal period of European history Lerma served Philip III as his favourite and first minister between 1598 and 1618 His power dazzled contemporaries one petitioner telling Philip that he had come to see him because I could not get an appointment with the Duke of Lerma Within a decade of assuming office Lerma had raised his family from humiliating poverty to great riches and was the greatest patron of the arts in Europe His use of power provoked intense debate about the nature of corruption in government Yet Lerma remained deeply ambivalent about his position Determined to follow family tradition and retire into religious life to secure the salvation of his soul he secured a cardinalate in 1617 ending his life as a prince of the Church      **Failed Imagination?** Andrew Williams,2013-01-18 The main purpose of this book is to explain how mainly American but also British and other Western policy makers have planned and largely managed to create an international order in their own image the so called New World Order It shows how this seismic shift in international relations has developed through the major global wars of the twentieth and twenty first centuries It uses a wide variety of historical archival material to give the background to the current and historical American obsession with creating the world order one that both reflects the American national interest but also can be said to have established the major security economic organisational and normative pillars of our epoch In addition it provides excellent background reading for the current debate about American foreign policy and the origins of neo conservatism in international relations This edition updates a very successful first edition of the title with additional material to take into account changes in the global order since 2001 and the beginning of the War on Terror      *Eucharistic*
