Parent And Child In Fiction:

Parent-Child-Relationships in Canadian Literature (King, Thomas: Green Grass, Running Water; Laurence, Margaret: A Bird in the House) Lysann Hofmann, 2007-09-27 Seminar paper from the year 2002 in the subject American Studies Literature grade 2 B Ernst Moritz Arndt University of Greifswald Institute for Anglistics American Studies course Canadian Literature language English abstract There are many different kinds of parent child relationships On the one hand there is the perfect relationship which means that the parents love their children and they love their parents This seems to be wonderful but there are also problems For example in some cases the people love their children so much that they become thoroughly spoilt On the other hand there is the total family disaster which means that in some cases the parents don't even have any contact with their children Unfortunately there are many relationships which have this character All in all it is very difficult for parents to build up a really good relationship to their children Childhood is the most important time in a human's life The children see their parents as the best people in the world and expect them to behave like this Later when the children get older they develop in different ways and it will be more difficult for the parents to do the right things So the expectations of the children remain the same but they make it more difficult for their parents In this way there can develop many problems Such parent child relationships are one of the main subjects in *A Bird in the House* by Margaret Laurence and *Green Grass Running Water* by Thomas King These two novels are about relationships and in which way these relationships work Furthermore it is talked about different kinds of people's behaviour and what effect it has on other people

field of children's literature studies *The Family in English Children's Literature* Ann Alston, 2008-06-03 From the trials of families experiencing divorce as in Anne Fine's *Madame Doubtfire* to the childcare problems highlighted in Jacqueline Wilson's *Tracy Beaker* it might seem that the traditional family and the ideals that accompany it have long vanished. However, in *The Family in English Children's Literature* Ann Alston argues that this is far from the case. She suggests that despite the tales of family woe portrayed in children's literature the desire for the happy, contented nuclear family remains inherent within the ideological subtexts of children's literature. Using 1818 as a starting point, Alston investigates families in children's literature at their most intimate, focusing on how they share their spaces, their ideals of home, and even on what they eat for dinner. What emerges from Alston's study are not so much the contrasts that exist between periods but rather the startling similarities of the ideology of family intrinsic to children's literature. *The Family in English Children's Literature* sheds light on who maintains control, who behaves, and how significant children's literature is in shaping our ideas about what makes a family good. *Readers' Guide to Periodical Literature*, 1922 **Current Literature** Edward Jewett Wheeler, 1902 **An Index to Legal Periodical Literature**, 1888 *Teaching Children's Fiction* C. Butler, 2006-03-20 This book combines the work of nine leading teachers and scholars of children's literature from Europe and North America. They explore the various disciplines and perspectives that have contributed to the study of children's literature, giving practical classroom suggestions. Contains an up-to-date resources section. *The Novels and Stories of Frank R. Stockton: Stories. [v.] 1: The lady or the tiger? The discourager of hesitancy. The transferred ghost. The spectral mortgage. Every man his own letter-writer. That same old coon. Our story. Derelict. On the training of parents. A borrowed month. The baker of Barnbury. The watchmaker's wife* Frank R. Stockton, 1900 *The Canadian Magazine of Politics, Science, Art and Literature*, 1900 **Parents, Children, and Adolescents** Anne Marie Ambert, 2020-12-18 *Parents, Children and Adolescents* presents an integrative perspective of the parent-child relationship within several contexts. You can expand your empirical and theoretical knowledge of the parent-child relationship and child development through the book's unusually holistic theoretical perspective that integrates three main frameworks: interactional theories on parents, children, and development; contextual ecological models; and behavior genetics. This insightful book's empirical scope is broader than that of most books in that it considers the parent-child relationship throughout the life course as well as within a great variety of contexts, including interactions with sibling and peers at school, in their neighborhoods, and with professionals. You'll gain immeasurable knowledge about parents' child-rearing styles and how they are affected by environmental variables, the interaction between parents and children, and between their personalities, behavior genetics, as one of the explanatory frameworks for the role of genetics and environment, negative child outcomes, emotional problems, conduct disorders, and delinquency, poverty, and other stressors affecting parents and children, problematic, abusive, emotionally disturbed, alcoholic parents, siblings, and peers as contexts for the parent-child dyad, the effect of the school system on the family, with a focus on minority families, family structure, divorce,

remarriage and families headed by never married mothers adolescent mothers and their own mothers the psychogenetic limitations on parental influence and cultural roadblocks to parental moral authority Complete with an Instructor s Manual Parents Children and Adolescents is ideal for advanced undergraduate and graduate classes in family studies and human development sociology of the family interdisciplinary developmental psychology and social work classes that need a thorough perspective on the parent child relationship Professionals and scholars in these fields seeking an interdisciplinary framework as well as research suggestions and incisive critiques of traditional perspectives will also find this innovative book a valuable addition to their reading lists *The Saturday Review of Politics, Literature, Science and Art* ,1881 *Child Welfare* ,1928
